

STANDARD OPERATING PROCEDURE · OFFICE STAFF

Alora Office Operating Manual

Step-by-step procedures for the Alora website, on the office Windows computer. Start of Care, documents, scheduling, monitoring, billing readiness and daily checks.

DOCUMENT	EDITION	ISSUED TO	BINDER COPY
ZCHH-SOP-ALORA-OFFICE-001	Version 2.0 DRAFT, September 2026	_____	_____

Inside this binder

- 1 Start Here: how it works, what is verified, who does what
- 2 Sign In and Navigate: login, dashboard, HIPAA
- 3 Patient Records: find, open, check, create
- 4 Documents and Orders: referral, scan, upload, verify, orders, face-to-face
- 5 Start of Care (SOC) Workflow: all 14 stages, SOC document upload, scheduling the SOC visit
- 6 Scheduling: add, view and change visits
- 7 Monitoring and Review: Live Monitor, EVV exceptions, clinical documents, QA
- 8 Billing and NOA
- 9 Daily, Weekly and Monthly Checks
- 10 Problems and Approvals: troubleshooting, what needs approval, who to call
- 11 Forms and Quick Cards: SOC Desk Checklist, forms, six quick cards, worksheet

DRAFT FOR ADMINISTRATOR REVIEW.

The pictures in this manual are training mockups, not screenshots. No screen, button or menu name has been checked against Zenith's live Alora account yet. Zenith standards in the text are proposed and not yet approved. Read p. 9, then complete the Live Alora Verification Worksheet (Tab 11) before you train anyone from this manual.

Desktop website only. This manual does not cover the mobile app or field clinician work. Zenith Care Home Health, LLC.
Uncontrolled when printed: check that your edition matches the latest edition held by the Administrator.

Document control

Keep this page at the front of the binder. It says which edition you are holding, who owns it, and whether it is approved for training.

ITEM	DETAIL
Title	Alora Office Operating Manual: Step-by-Step Office Procedures
Document number	ZCHH-SOP-ALORA-OFFICE-001
Edition	Version 2.0 DRAFT. September 2026.
Owner	The Administrator, Zenith Care Home Health, LLC
Applies to	Office employees who use the Alora website on a Windows desktop computer .
Does not cover	The mobile app, field clinician workflows, and clinical documentation. Office staff never complete clinical forms.
Review	Every year, and every time Alora changes a screen that this manual shows.
Copy status	Uncontrolled when printed. A printed page may be out of date. Ask the Administrator for the latest edition.
Training use	Not approved until the Administrator signs below and the Live Alora Verification Worksheet (Tab 11) is complete.

Revision history

EDITION	DATE	WHAT CHANGED	BY
1.0	Earlier	General guide to Alora for all staff. Replaced.	
2.0 DRAFT	September 2026	Rebuilt as a step-by-step office manual. Desktop website only. One workflow for Start of Care. Training mockups with verification tags. Forms, checklist and quick cards added.	

Approval

I confirm that this edition may be used to train Zenith office employees. I confirm that the Zenith standards on the Standards pages are correct, and that the Live Alora Verification Worksheet was completed on the date shown.

Administrator name and signature

Date approved

Director of Nursing name and signature

Live Alora verification completed on (date)

WHAT THIS MANUAL IS BASED ON

- **Alora:** public product information, used only to name features. Zenith's live Alora account was **not** available when this edition was written.
- **Medicare and HIPAA:** the Medicare Conditions of Participation for home health agencies (42 CFR 484), the face-to-face requirement (42 CFR 424.22), Medicare payment rules for the Notice of Admission, and the HIPAA Security Rule (45 CFR 164.312).
- **Florida:** section 415.1034, Florida Statutes (reporting of abuse, neglect and exploitation of vulnerable adults).
- **Zenith:** the earlier Zenith Alora guide and its standards. Zenith standards here are drafts until approved.

Start Here

Read these pages first. They tell you how the binder works, what has and has not been verified, who does what, and when to stop.

In this tab

How to use this binder	p. 6
How to read a step page and the tags	p. 7
I need to... (task index)	p. 8
What is verified and what is not	p. 9
Who does what	p. 10
When to stop and ask	p. 11
Zenith standards in this manual	p. 12
Alora access sheet	p. 14

NOTES

How to use this binder

Sit at the office computer with the binder open beside the keyboard. Do one procedure at a time. Never do a step from memory.

The method

SEE IT

match the picture to your screen

CLICK IT

➤ follow the red numbers in order

ENTER IT

➤ type only what the page asks

SAVE IT

➤ click once, then wait

VERIFY IT

➤ check the result on screen

Every procedure has the same pattern

1. **Start page.** What the procedure is for, what you need before you begin, and the list of steps with page numbers.
2. **Step pages.** One picture with red numbers, and the words for what to do after each click. Follow the numbers in order.
3. **Finish page.** The final verification checklist, the stop rules, and the things you must not do.

Your first four weeks

WEEK	DO THESE PROCEDURES WITH A TRAINER	THEN DO THEM ALONE
1	P1 Log Into Alora · P2 Dashboard · P28 Security and HIPAA · P3 Find a Patient · P4 Open a Patient Record	P1, P3, P4
2	P5 Demographics · P9 Scan and Name · P8 Upload · P10 Verify Documents	P9, P8, P10
3	P6 Process a Referral · P11 Orders · P12 Face-to-Face · P7U SOC Document Upload	P6, P7U
4	P7 SOC Stage Guide · P13 Prepare the SOC Visit · P14 to P16 Scheduling · P23 Daily Check	P13, P14, P23
After	P15 to P22 Monitoring, QA, Billing and NOA (as the Administrator assigns) · P24, P25 Weekly and Monthly	

RULES FOR THE BINDER

- Write in the margins. If your Alora shows a different button name, write the real name next to the tag and tell the Administrator.
- Do not remove pages. Copy forms from Tab 11.
- If this manual and the Administrator disagree, follow the Administrator and report the difference.

How to read a step page

Every step page has the same parts in the same places. Learn them once.

A Step number and title

B The picture. A training mockup of the screen. **1 2**

3 The red numbers show where to click, in order. Each number has a short label. Follow them in order.

C Do these in order. One line for each red number.

E What you should see

D ENTER: what to type. CHECK: what to check before you save. EXPECTED RESULT: what should happen.

F Do not do this

H Alora action
what to do in Alora

I Zenith standard
Zenith's own rule

J Live Alora check. The Administrator initials this when the picture was compared with live Alora.

The tags

TAG	WHAT IT MEANS FOR YOU
VERIFY IN LIVE ALORA	Nothing public confirms this name or place. Compare the picture with your screen. If they differ, write the real name in the margin and tell the Administrator.
ALORA FEATURE	Alora publicly describes this feature by name. The exact words of the menu or button and their place still have to be checked.
VERIFIED	The Administrator confirmed the name and place in live Alora. (None yet in this edition.)
FROM LIVE ALORA	The picture is a real screenshot from Zenith's Alora with numbers added.
WINDOWS	A standard Windows window, such as the file chooser. Not Alora.
ZENITH FORM	A paper form from Tab 11. Not a screen.
Alora action	What you do in Alora: click, type, choose, save.
Zenith standard	A rule Zenith sets for its own office. It is stricter than, or additional to, what Alora does.
FEDERAL RULE	A rule from Medicare, HIPAA or Florida law. The Administrator explains it if you ask.

I need to...

Find your task, then turn to the page. The procedure numbers (P1, P2...) are the same on every page header.

I NEED TO...	PROCEDURE	PAGE
Log into Alora	P1	p. 16
Find my way around the dashboard	P2	p. 22
Find a patient	P3	p. 35
Open a patient record	P4	p. 40
Check patient name, birth date, address, insurance	P5	p. 45
Add a new patient (only when allowed)	P5B	p. 51
A referral just arrived	P6	p. 59
Process a whole Start of Care packet	P7	p. 107
Upload the referral, order and face-to-face	P7U	p. 123
Upload a scanned document	P8	p. 73
Scan and name a document	P9	p. 67
Check that an upload is correct	P10	p. 83
Review a physician order	P11	p. 90
Review face-to-face documentation	P12	p. 97
Get a new patient ready for the first visit	P13	p. 135
Put a visit on the schedule	P14	p. 145
Look at the schedule	P15	p. 155
Change a visit (only with written approval)	P16	p. 163
Watch visits today	P17	p. 172
A visit record does not match	P18	p. 179
Check that clinical papers are moving	P19	p. 186
Do the QA check	P20	p. 193
Check that a patient is ready to bill	P21	p. 201
Send and track the NOA	P22	p. 207
Do the daily check	P23	p. 216
Do the weekly check	P24	p. 225
Do the monthly check	P25	p. 232
Something does not look right	P26	p. 240
Can I do this, or do I need approval?	P27	p. 243
Protect patient information	P28	p. 28

What is verified and what is not

Read this page before you trust any picture in this manual.

PLAIN STATEMENT

In this edition, no screen, button, menu or box name has been verified against Zenith's live Alora account. Alora's own training screens are not public and were not available. The pictures are a neutral, clearly labeled wireframe of a web application. They show where on a typical screen an item would be, and they show the **order** of the clicks. They do not show what Alora really looks like.

KIND OF ITEM	STATUS IN THIS EDITION	WHAT THE MANUAL DOES
Names of Alora features (for example Live Monitor, QA, NOA widget)	FEATURE	Uses the public feature name. Tags the exact menu or button text as 'to verify'.
Menu, button, box and column names	VERIFY	Describes the item in plain words. Tags it. Never presents a guessed name as real.
Order of the clicks	VERIFY	Follows how web scheduling and records systems normally work. The Administrator confirms it in live Alora.
Windows windows (file chooser, folders, lock screen)	WINDOWS	Standard Windows behavior.
Paper forms and Zenith rules	ZENITH	Written by Zenith. Drafts until the Administrator approves them.

How to close the gap

- Live Alora check (about 2 hours).** The Administrator works through the **Live Alora Verification Worksheet** (Tab 11) at a computer signed in to live Alora, and writes the real names and places.
- Reissue.** The real names go into the manual. Tags change to VERIFIED. Wording that needs changing is changed.
- Real screenshots (optional but best).** Capture each screen from live Alora, add the red numbers with the annotation tool, and drop the file into the manual. The picture then says FROM LIVE ALORA.
- Approve.** The Administrator signs the Document control page.

Features Alora documents publicly

Alora's public product information names these features. That tells us a feature exists, not where it is on Zenith's screens.

- Dashboard
- Pending 485 forms, orders and OASIS shown in one place
- NOA dashboard widget for timely filing
- Scheduling
- QA
- Billing
- HR functions
- Messaging
- Paperless records (scanned document storage)
- Patient communication log
- Insurance records (unlimited per patient)
- Physician lookup from the NPI registry
- Intake and referral tracking
- Live Monitor
- Custom Documents
- Schedule views by patient, caregiver or agency
- Schedule views by day, week, month or certification period
- Batch entry scheduling
- Conflict and compliance alerts (authorization, visit frequency)
- Color-coded delay and no-show warnings
- Visits held for manual review before they are sent
- OASIS with scrubber
- Plan of care (CMS-485)
- Billing for all payers
- One-click NOA generation
- Built-in electronic faxing

Who does what

Office staff prepare, check and report. Clinicians and the DON decide clinical questions. The Administrator decides everything else that this manual says needs approval.

ROLE	WHAT THEY DO IN THIS MANUAL	WHAT THEY NEVER DO
Intake staff	Log and check referral packets. Find patients. Scan, name and upload documents. Check demographics. Check orders and face-to-face papers.	Accept or decline a referral. Change clinical information. Choose the nurse.
Second person	Verifies orders and face-to-face documents that someone else uploaded.	Verify their own upload.
Scheduler	Adds visits from a signed request. Checks the calendar. Changes a visit only with written approval. Tells team members and patients.	Change the ordered frequency. Choose the nurse for a start of care.
Office staff on duty	Watch the Live Monitor. Call about late visits. Gather facts for exceptions. Do the daily checks.	Change a visit status or time. Approve an exception.
QA reviewer (named by the DON)	Judges clinical content. Returns items for correction.	Approve their own work.
Billing staff	Check billing readiness. Create and send the NOA when named by the Administrator. Send claims.	Change clinical documents.
Director of Nursing (DON)	Decides referrals and clinical questions. Names the nurse for every start of care. Approves clinical changes.	
Administrator	Owens this manual. Approves record changes, document removals, EVV exceptions, user logins and anything marked 'Administrator'.	

YOUR NAME IN THIS BINDER

Write who fills each role at Zenith, so a new employee knows whom to ask.

When to stop and ask

These rules apply to every procedure. Each procedure also has its own stop rules on its finish page. To stop is always correct. A guess that goes wrong is not.

ALWAYS STOP AND ASK THE ADMINISTRATOR OR DON IF

- ☐ A screen or a button does **not look like the picture** and you are not sure what to click.
- ☐ The patient's **name or date of birth does not match** a document.
- ☐ **Two patients** could be the right one, or **no patient** can be found after three searches.
- ☐ A document is in the **wrong patient's chart**. Tell the Administrator **now**.
- ☐ An **error message** appears, or Alora does nothing after you click.
- ☐ An **alert** appears while you schedule or save.
- ☐ The **48-hour deadline** cannot be met, or an NOA is close to its 5-day limit.
- ☐ An **order or face-to-face document** is missing, unsigned or outside its date window.
- ☐ Someone asks you to **change a time, a status or a record** to make it look right.
- ☐ Someone asks for **patient information** and you are not sure they may have it.
- ☐ You think someone used **your login**, or you used someone else's.
- ☐ You are asked to do something this manual says needs **approval**.

What to say

Say it in short, plain sentences. You do not have to use perfect English. Use this pattern:

1. "I am ****stopping**** at procedure __, step __."
2. "I saw ____."
3. "I have ****not changed**** anything."
4. "What should I do?"

DO

- Stop at once.
- Leave the screen as it is.
- Write the time and the words you saw.
- Ask.

DO NOT

- Do not try a different button to see what happens.
- Do not start again and hope it fixes itself.
- Do not hide a mistake.

Zenith standards in this manual (1 of 2)

These are the times, numbers and rules that Zenith sets for its own office. **They are drafts.** The Administrator initials each one to approve it, or writes a change. Where a federal rule also applies, it is shown. A Zenith standard must never allow more time than the law allows.

NO.	STANDARD	WHERE	FEDERAL RULE IT MUST NOT EXCEED	APPROVED (INITIALS)
1	Log every referral packet within 15 minutes of arrival.	P6	The 48-hour initial visit clock starts at referral.	
2	The DON or Administrator decides every referral. Office staff never accept, hold or decline.	P6, P27		
3	Identify a patient with two identifiers: name and date of birth.	P3, P4, P8		
4	Search three ways before creating a patient. Create only after the DON accepts.	P5B		
5	Name files LASTNAME_FIRSTNAME_DOCUMENTTYPE_YYYYMMDD.pdf. Scan as PDF at 300 dpi, one patient and one document type per file.	P9		
6	Verify a document in the same session you upload it. Orders and face-to-face: a second person verifies.	P8, P10		
7	Every new order goes to the DON the same day, signed or not.	P11		
8	Tell the DON the same day about a face-to-face problem.	P12	Face-to-face visit 90 days before to 30 days after start of care (42 CFR 424.22).	
9	The first nurse visit is scheduled inside 48 hours of the referral, unless the physician ordered a later date.	P13	Initial assessment within 48 hours (42 CFR 484.55).	
10	Visits follow a signed Visit Scheduling Request. Office staff never change the frequency.	P14	Visits follow the plan of care.

Zenith standards in this manual (2 of 2)

NO.	STANDARD	WHERE	FEDERAL RULE IT MUST NOT EXCEED	APPROVED (INITIALS)
11	Change a visit only with written approval from the DON or Administrator. Never delete a visit.	P16		
12	Check the Live Monitor at the start of the day, at midday and one hour before the end of the day.	P17, P23		
13	Call the team member when a visit is more than 15 minutes late. Tell the DON when it is more than 30 minutes late. Tell the DON at once about a no-show or a late start of care visit.	P17		
14	Report an EVV exception older than 2 business days to the Administrator. Office staff never approve an exception.	P18, P23	Visit records must be accurate.	
15	Remind about a late clinical document the same day it is found. Report items older than 7 days to the DON.	P19, P24	Comprehensive assessment within 5 calendar days of start of care (42 CFR 484.55). OASIS sent within 30 days (42 CFR 484.45).	
16	Office staff check QA items for completeness only. The QA reviewer named by the DON returns or approves.	P20		
17	Check billing readiness at least 3 business days before a claim is due.	P21		
18	Send the NOA within 5 calendar days of the start of care. Check its status every business day until accepted. Only billing staff the Administrator names create it.	P22	NOA within 5 calendar days (Medicare payment rules).	
19	Complete the daily sheet every day, the weekly sheet every Friday, the monthly sheet by the last business day of the month.	P23 to P25		
20	Lock the computer every time you leave your seat. Log out at the end of your shift. Remove a scanned file from the scan folder only after it is verified.	P28	Unique user login and safeguards (45 CFR 164.312).	
21	A document in the wrong chart is reported to the Administrator at once.	P10, P26	HIPAA.

NOTES

TAB 2 · PROCEDURE P1

Log Into Alora

Purpose

You must sign in with your own login before you can see any patient information. This procedure shows how to open the Alora website, sign in, and confirm that you are in the right place.

Before you start

- ☐ Your **own** Alora username and password from the Administrator.
- ☐ The **Alora Access Sheet** with the Zenith Alora web address (Tab 1).
- ☐ A Zenith office computer (Windows). Not a personal computer. Not a phone.
- ☐ A private place to sit. Nobody can read your screen.

WHO AND HOW LONG

Who: Every office employee.

Time: 2 minutes.

Steps in this procedure

- 1 Open the Alora website** p. 17
- 2 Enter your username and password** p. 18
- 3 Click Login** p. 19
- 4 Confirm you are on your own dashboard** p. 20

11 FORMS

STEP 1 Open the Alora website

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **web browser icon** on the taskbar at the bottom of the screen. Use the browser the Administrator told you to use.
- 2 Click the **address bar** at the top of the browser. Type the Alora web address exactly as written on the Alora Access Sheet. Press the **Enter** key.

ENTER The Zenith Alora web address from the Alora Access Sheet.

- CHECK**
- The address is the same as on the Access Sheet.
 - The browser shows that the page is secure (https).

EXPECTED RESULT The Alora sign-in page opens.

WHAT YOU SHOULD SEE

A sign-in page with a box for a username, a box for a password, and a login button. The next page shows it.

DO NOT DO THIS

- Do not sign in from an address that came in an email or text.
- Do not let the browser save your password.

IF IT DOES NOT LOOK RIGHT: STOP

The page will not open, or the browser shows a security warning: close the browser and start again.

- It happens a second time: **stop** and contact the Administrator.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora is a web-based system. Staff open it in a web browser. Nothing is installed on the computer.

ZENITH STANDARD

Use only the address on the Alora Access Sheet. If the sheet is blank, ask the Administrator.

STEP 2

Enter your username and password

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click inside the **username** box. Type your own Alora username.
- 2 Click inside the **password** box. Type your own password.

ENTER

Your own username and your own password. Nobody else's.

CHECK

- The username on the screen is yours.
- The password shows as dots.
- Nobody is watching your screen.

EXPECTED RESULT

Your username is in the first box. Dots are in the second box.

WHAT YOU SHOULD SEE

The sign-in page with your username in the first box and dots in the second box.

DO NOT DO THIS

- Do not use another person's login, even if they offer.
- Do not write your password on paper near the computer.

IF IT DOES NOT LOOK RIGHT: STOP

You do not have a username or password yet: do not borrow one.

- Ask the Administrator for your own login.

ALORA ACTION **VERIFY IN LIVE ALORA**

Sign in with the username and password that your agency Administrator created for you in Alora.

ZENITH STANDARD

Every office employee has a personal login. Sharing a login is not allowed.

FEDERAL RULE HIPAA requires that every person who uses a patient record system has a unique login.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 3

Click Login

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **Login** button **one time**. Wait a few seconds.

ENTER Nothing to type on this step.

CHECK • You clicked only once.

EXPECTED RESULT The Alora dashboard opens.

WHAT YOU SHOULD SEE

A screen with a menu on the left and your name at the top right. It is called the dashboard.

IF IT DOES NOT LOOK RIGHT: STOP

A message says the username or password is wrong: check the letters and try **one** more time.

- It fails a second time: **stop** and contact the Administrator.
- The message says the account is locked, or asks for a code you do not know: **stop**.

ALORA ACTION **VERIFY IN LIVE ALORA**

Select the login button to sign in.

ZENITH STANDARD

Wait at least 10 seconds before you try again. Do not click many times.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 4

Confirm you are on your own dashboard

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Look at the top right of the screen. Find **your own name**.
- 2 Look at the left side. Find the **main menu**.

ENTER Nothing to type on this step.

- CHECK**
- The name is yours, not another person's.
 - No patient name is open yet.

EXPECTED RESULT You are signed in as yourself and the dashboard is open.

WHAT YOU SHOULD SEE

Your name at the top right. A menu on the left. Boxes in the middle that show work waiting.

DO NOT DO THIS

- Do not go on if another person's name is shown.

IF IT DOES NOT LOOK RIGHT: STOP

Another name is shown: log out and **stop**. Tell the Administrator.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

The dashboard is the first screen after login. Alora documents a dashboard that tracks pending work in one place.

ZENITH STANDARD

Confirm your own name every time you sign in, before you open any patient.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

PROCEDURE P1 · FINISH

Log Into Alora

Final verification

- ☐ I signed in with my **own** username and password.
- ☐ My own name is shown at the top right.
- ☐ The dashboard is open.
- ☐ I did not save my password in the browser.
- ☐ I did not share my password.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- You do not have your own username or password.
- Your login fails twice.
- The sign-in page looks different from what the Administrator showed you, or asks for something unusual.
- The dashboard shows another person's name, or patient information you did not open.
- You cannot tell if the web address is correct.

DO NOT DO THIS (COMMON MISTAKES)

- Do not use links from emails or texts to reach Alora.
- Do not sign in on a personal computer or phone.
- Do not walk away while you are signed in. Press the **Windows key + L** to lock the computer.

Understand the Desktop Dashboard

Purpose

The dashboard is the first screen you see after login. It shows the work that is waiting. This procedure teaches the three parts every Alora screen has, and the two dashboard boxes you will use most.

Before you start

- ☐ You are signed in with your own name (P1).
- ☐ The dashboard is open.

WHO AND HOW LONG

Who: Every office employee.

Time: 10 minutes the first time.

Steps in this procedure

- | | | |
|---|---|-------|
| 1 | Find the menu, the search box and your name | p. 23 |
| 2 | Read the pending items box | p. 24 |
| 3 | Read the NOA box | p. 25 |
| 4 | Open an area and come back | p. 26 |

STEP 1

Find the menu, the search box and your name

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the **main menu** down the left side. Each item opens a different area of Alora.
- 2 Find the **search box** at the top. You use it to look for a patient or a person.
- 3 Find **your own name** at the top right. You use it to see your account and to log out.

ENTER Nothing to type on this step.

CHECK • You can find all three parts without help.

EXPECTED RESULT You know where the menu, the search box and your name are.

WHAT YOU SHOULD SEE

A menu on the left, a search box at the top, your name at the top right, and boxes of work in the middle.

IF IT DOES NOT LOOK RIGHT: STOP

Your screen has no search box or no menu: take a photo of the screen with your phone only if the Administrator allows it, then stop and ask.

NOTE

Gray words in the picture only describe each area. Your Alora menu may use other words.

ALORA ACTION **VERIFY IN LIVE ALORA**

Alora is a web-based system with a dashboard. The exact look, menu words and positions in Zenith's Alora must be confirmed.

ZENITH STANDARD

Learn the three parts before you open any patient. Every other procedure in this manual starts from them.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 2 Read the pending items box

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the box that lists **pending items**: plans of care (485), orders and OASIS assessments.
- 2 Click **one row** to open the list behind it. Look, then return to the dashboard.

ENTER Nothing to type on this step.

CHECK

- You see a number next to each kind of item.
- You did not change anything.

EXPECTED RESULT	You can see how many 485s, orders and OASIS items are waiting.
------------------------	--

WHAT YOU SHOULD SEE

A box with rows for plans of care, orders and OASIS, each with a count.

DO NOT DO THIS

- Do not change an order, a plan of care or an OASIS. Office staff only look and report.

IF IT DOES NOT LOOK RIGHT: STOP

- You do not see this box: stop and ask. Your role may not allow it.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Alora documents that it can show pending 485 forms, orders and OASIS assessments in one place. The box name and its place on the dashboard must be verified.

ZENITH STANDARD

Check this box at the start of each shift. Tell the DON about items that have been waiting more than 1 business day.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

	Yes	Initials	Date
--	-----	----------	------

STEP 3 Read the NOA box

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the box that shows **NOA** (Notice of Admission) work. It is about timely filing.
- 2 Read the **five-day deadline**. A late NOA lowers Medicare payment.

ENTER Nothing to type on this step.

CHECK • You know how many NOAs are waiting.

EXPECTED RESULT You know if an NOA is waiting and how much time is left.

WHAT YOU SHOULD SEE

A box with a number of NOAs to send and a reminder about the five-day deadline.

DO NOT DO THIS

- Do not send an NOA from this page unless you are the billing-authorized employee (P22).

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents an NOA dashboard widget that tracks timely filing, and one-click NOA creation. The widget name and place must be verified.

ZENITH STANDARD

Only billing-authorized employees create or send an NOA. Everyone else looks and tells billing.

FEDERAL RULE The NOA is due within 5 calendar days after the start of care. A late NOA reduces payment.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 4 Open an area and come back

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 You are in the **patients area**. The menu item is marked.
- 2 Click the **dashboard menu item** to go back to the dashboard.

ENTER Nothing to type on this step.

CHECK • You can go to an area and return without using the browser back arrow.

EXPECTED RESULT You are back on the dashboard.

WHAT YOU SHOULD SEE

The dashboard again, with your name at the top.

DO NOT DO THIS

- Do not use the browser Back arrow or Refresh while a form is open. You can lose what you typed.

ALORA ACTION VERIFY IN LIVE ALORA

Use the main menu to move between areas.

ZENITH STANDARD

Always use the Alora menu to move around. Do not use the browser Back arrow inside a patient record.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

PROCEDURE P2 · FINISH

Understand the Desktop Dashboard

Final verification

- ☐ I can find the main menu, the search box and my name.
- ☐ I found the pending items box.
- ☐ I found the NOA box.
- ☐ I can go to an area and return to the dashboard.
- ☐ I did not change anything.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- A box mentioned here is missing from your dashboard.
- Your role does not seem to allow what this manual tells you to do.
- You see a number that looks wrong (for example many items waiting for many days).

DO NOT DO THIS (COMMON MISTAKES)

- Do not click buttons just to see what they do while a patient is open.
- Do not leave a form half finished and move away.

TAB 2 · PROCEDURE P28

Security and HIPAA Precautions

Purpose

Patient information is private. This procedure shows the three habits that protect it at the office computer: lock it, log out, and keep files and paper safe.

Before you start

- ☐ You are working at a Zenith office computer.
- ☐ You have read the Zenith privacy policy (ask the Administrator).

WHO AND HOW LONG

Who: Every office employee, every day.

Time: 1 minute each time.

Steps in this procedure

- 1 Lock the computer when you leave your seat** p. 29
- 2 Log out of Alora at the end of the day** p. 30
- 3 Keep scanned files and paper safe** p. 31

SEE IT

type only what is asked

SAVE IT

one click, then wait

VERIFY IT

check the result

STEP 1

Lock the computer when you leave your seat

Press two keys at the same time

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Keyboards differ a little by computer. The two keys are always there.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Hold down the **Windows key**.
- 2 While you hold it, press the **L key** once. Let go of both.

ENTER Nothing to type on this step.

CHECK • The screen changes to the lock screen.

EXPECTED RESULT The computer is locked. Nobody can see Alora or patient information.

WHAT YOU SHOULD SEE

A lock screen that asks for a password. Your work is hidden.

DO NOT DO THIS

- Do not leave Alora open and unlocked, even for one minute.

ALORA ACTION **ZENITH PROCESS**

Not an Alora action. This is a Windows action.

ZENITH STANDARD

Lock the computer every time you leave your seat, even to get water.

FEDERAL RULE HIPAA requires safeguards so that only authorized people see patient information.

STEP 2 Log out of Alora at the end of the day

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click **your name** at the top right.
- 2 Click the **log out** choice.

ENTER Nothing to type on this step.

CHECK • You are back on the sign-in page.

EXPECTED RESULT You are logged out. The sign-in page is showing.

WHAT YOU SHOULD SEE

The sign-in page. Your name and all patient information are gone.

IF IT DOES NOT LOOK RIGHT: STOP

You cannot find the log out choice: **stop**, lock the computer (Windows key + L) and ask the Administrator.

ALORA ACTION VERIFY IN LIVE ALORA

Use your name menu to log out. The exact word for the choice must be verified.

ZENITH STANDARD

Log out at the end of your shift and any time a different person will use the computer.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

1 Patient files waiting here

WINDOWS

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Windows screens look a little different on each computer.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Look in the scan folder for files that are already uploaded and **verified** in Alora. These can be removed.

ENTER

Nothing to type on this step.

CHECK

- No patient file stays in the scan folder after the upload is verified.
- No patient paper is left on the desk.

EXPECTED RESULT

The scan folder holds only files that still wait for upload.

WHAT YOU SHOULD SEE

A folder that has few or no files. Each file left is a patient file waiting for its turn.

DO NOT DO THIS

- Do not delete a file that is not yet verified in Alora.
- Do not email or text a patient file.

ALORA ACTION ZENITH PROCESS

Not an Alora action. This is a Zenith office rule.

ZENITH STANDARD

Remove a scanned file from the scan folder only after the document is verified in Alora (P10). Follow the Administrator's instruction for the original paper: file it or use the locked shred bin.

PROCEDURE P28 · FINISH

Security and HIPAA Precautions

Final verification

- ☐ I locked the computer when I left my seat.
- ☐ I logged out of Alora at the end of my shift.
- ☐ No patient file is left in the scan folder without a reason.
- ☐ No patient paper is left on my desk.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- You think someone used your login.
- You see patient information on a screen, printer or fax you did not expect.
- A file or paper with patient information is lost.
- Someone asks you for patient information and you are not sure they may have it.

DO NOT DO THIS (COMMON MISTAKES)

- Do not share your password.
- Do not take photos of patient information with a phone.
- Do not use a personal email or text for patient information.
- Do not leave papers in the printer or fax tray.
- Do not look at a patient record you do not need for your job.

11 FORMS

HIPAA precautions at the office computer

Read this page before your first day. Keep it in the binder.

ALWAYS

- Use only your own login.
- Lock the computer when you leave (Windows key + L).
- Open only the patients you need for your job.
- Check the patient name and birth date before you save anything.
- Put papers away and close the scan folder.
- Report a problem the same minute you notice it.

NEVER

- Share a password or let someone work under your login.
- Take photos or screenshots of patient information on a personal phone.
- Send patient information by personal email, text or social media.
- Leave a patient screen open where visitors can read it.
- Look at a record out of curiosity (family, friends, neighbors).
- Discuss a patient where others can hear.

What counts as patient information

Any information that can point to one patient and relates to health or care: name, address, phone, birth date, insurance number, diagnosis, medicines, photos, orders, notes and scanned documents. If it can identify one patient, treat it as private.

If something goes wrong

1. Stop what you are doing.
2. Tell the Administrator right away. Do not wait until the end of the day.
3. Say what happened, when, and which patient. Do not guess and do not hide anything.
4. Follow the Administrator's instructions.

FEDERAL RULE

HIPAA requires each person to have a unique login, requires safeguards for patient information, and lets Zenith check who opened or changed a record. Act as if every click is recorded.

3

Patient Records

Find the right patient, open the record, check the demographics, and (only when needed) add a new patient.

In this tab

P3 Find a Patient	p. 35
P4 Open a Patient Record	p. 40
P5 Review Patient Demographics	p. 45
P5B Create a New Patient	p. 51

NOTES

TAB 3 · PROCEDURE P3

Find a Patient

Purpose

To find the right patient every time. Opening or saving into the wrong patient is the most serious and most common office mistake. You will use two identifiers (name and date of birth) before you open anything.

Before you start

- ☐ The patient's **full name** and **date of birth** from the referral, order or face sheet.
- ☐ The source document in your hand.
- ☐ You are signed in with your own login (P1).

WHO AND HOW LONG

Who: Every office employee.

Time: 2 minutes.

Steps in this procedure

- 1 Go to the patient search** p. 36
- 2 Type the last name and birth date** p. 37
- 3 Choose the correct patient** p. 38

11 FORMS

STEP 1 Go to the patient search

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **patients menu item** on the left.
- 2 Or click the **top search box** if Zenith uses it. Use only one of the two.

ENTER Nothing to type on this step.

CHECK • You are not inside another patient's record.

EXPECTED RESULT A patient search screen opens.

WHAT YOU SHOULD SEE

A screen with a box to search for a patient and, underneath, a list.

IF IT DOES NOT LOOK RIGHT: STOP

Nothing opens or the screen is different: **stop** and ask. Do not try other menu items.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents intake, referral tracking and patient record features. The menu word and the search place must be verified.

ZENITH STANDARD

Search from the main menu, never from inside another patient's chart.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 2 Type the last name and birth date

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **last name** box. Type the patient's last name.
- 2 If the screen has a **date of birth** box, click it and type the date.
- 3 Click the **Search** button.

ENTER

Last name exactly as on the source document. Date of birth as month/day/year. Do not type the first name alone.

CHECK

- The spelling matches the document.
- You typed the date of birth, not today's date.

EXPECTED RESULT

A list of patients with a matching name appears.

WHAT YOU SHOULD SEE

A list of rows. Each row shows a name, a date of birth and other details.

DO NOT DO THIS

- Do not search with only a first name.
- Do not guess a spelling. If unsure, try the part you are sure of.

IF IT DOES NOT LOOK RIGHT: STOP

- Nothing is found. Go to P5B only after the duplicate check in P5B step 1.

ALORA ACTION VERIFY IN LIVE ALORA

Enter the patient's name in the search and start the search. Box and button names must be verified.

ZENITH STANDARD

Search by last name plus date of birth. If there is no result, search once more with a shorter spelling before you decide the patient is new.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 3 Choose the correct patient

Search by last name:

Date of birth (if available):

Patient name	Date of birth	Record number	Status
Smith, Mary A.	03/14/1941	R-10482	Active
Smith, Mary	03/14/1941	R-09110	Discharged
Smith, Marie	07/02/1944	R-11236	Pending

Sample data. Not real patients.

1 Name matches

2 Birth date matches

3 Record number

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Compare the **name** in this row with the source document.
- 2 Compare the **date of birth** in this row with the source document.
- 3 Write the **record number** on your SOC Desk Checklist. This row is now your patient. Do not open it yet.

ENTER Nothing to type on this step.

- CHECK**
- Two identifiers match: name AND date of birth.
 - No other row has the same name and birth date.
 - The status looks reasonable (for example Active or Pending).

EXPECTED RESULT You know exactly which row is the right patient.

WHAT YOU SHOULD SEE

One row that matches the document in name and date of birth.

DO NOT DO THIS

- Do not open a patient because the name looks close.
- Do not choose a row with a different birth date.

IF IT DOES NOT LOOK RIGHT: STOP

- Two rows match in name and birth date.
- Nothing matches but you believe the patient is already in Alora.
- The patient's status is discharged or unexpected and you do not know why.

ALORA ACTION

Alora shows matching patients in a list. Column names must be verified.

ZENITH STANDARD

Two identifiers must match the source document before you open a chart.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials Date

PROCEDURE P3 · FINISH

Find a Patient

Final verification

- ☐ I searched by last name (and date of birth when available).
- ☐ Name AND date of birth match the source document.
- ☐ I found only one matching patient.
- ☐ I did not open a patient I was unsure about.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- Two patients have the same name and date of birth.
- You cannot tell which record is correct.
- The patient cannot be found but you think the patient has been here before.
- The source document has no date of birth.

DO NOT DO THIS (COMMON MISTAKES)

- Do not open a patient just because the name looks close.
- Do not create a new patient before you finish the duplicate check (P5B).
- Do not use a nickname instead of the legal name.

TAB 3 · PROCEDURE P5

Review Patient Demographics

Purpose

To check that the patient's name, birth date, address, phone, language, insurance and physician in Alora match the source documents. Wrong details cause wrong claims, missed calls and visits to the wrong address.

Before you start

- ☐ The patient's record is open and confirmed (P4).
- ☐ The referral or face sheet and the insurance card copy.

WHO AND HOW LONG

Who: Intake and admission staff.

Time: 5 minutes.

Steps in this procedure

- 1

Open the demographics section

p. 46
- 2

Compare name, birth date and address

p. 47
- 3

Compare insurance and physician

p. 48
- 4

Report a difference (do not fix it yourself)

p. 49

STEP 1

Open the demographics section

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **demographics** section under the patient banner.

ENTER

Nothing to type on this step.

EXPECTED RESULT

The patient's personal details open.

WHAT YOU SHOULD SEE

A screen with boxes for name, birth date, address, phone and other details. They already have information in them.

DO NOT DO THIS

- Do not click an edit button yet.

ALORA ACTION **VERIFY IN LIVE ALORA**

Open the patient's demographic details. Section name and place must be verified.

ZENITH STANDARD

Only look. Do not click Edit on this step.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 2

Demographics Edit

Last name **1 Last name** VERIFY

First name

Date of birth **2 Date of birth** VERIFY

Address **3 Address** VERIFY

Phone **4 Phone** VERIFY

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Compare the **last name** (and the first name below it) with the document.
- 2** Compare the **date of birth** with the document.
- 3** Compare the **address** with the document.
- 4** Compare the **phone** number with the document.

WHAT YOU SHOULD SEE

The details in Alora next to your document. Point at each one with your finger as you compare.

DO NOT DO THIS

- Do not change anything because it 'looks wrong'.
- Do not guess a missing detail.

ENTER

Nothing to type on this step.

CHECK

- Every letter of the name matches.
- The birth date matches exactly.
- Street number, street name and ZIP code match.

EXPECTED RESULT

Each detail matches the document, or you have a list of differences.

ALORA ACTION VERIFY IN LIVE ALORA

Read the demographic fields. Field names must be verified.

ZENITH STANDARD

A difference is not yours to fix. Write it down and go to step 4.

LIVE ALORA CHECK (Administrator): names and places match live Alora.☐

Yes

Date

STEP 3

Compare insurance and physician

Training Mockup. Not an Alora Screenshot.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Compare the **insurance** name and ID number with the insurance card copy.
- 2 Compare the **physician** name with the order or referral.

ENTER Nothing to type on this step.

- CHECK**
- Insurance ID matches the card, character by character.
 - The physician is the one on the order.
 - The physician's NPI matches (when shown).

EXPECTED RESULT Insurance and physician match the documents.

WHAT YOU SHOULD SEE

An insurance entry and a physician entry that match the papers.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find the physician or the insurance and do not know why.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents unlimited insurance records per patient and a physician lookup from the national NPI registry. The fields and their place must be verified.

ZENITH STANDARD

More than one insurance entry is normal. Check that the **current** one is correct and first.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

What Alora shows: _____ **1 What Alora shows**

What the document shows: _____ **2 What the document shows**

Document name and date: _____

REQUESTED BY

Employee: _____ Date: _____

ADMINISTRATOR / DON

☐ Approved: make this change **3 Administrator approves**

☐ Not approved: no change

ZENITH FORM

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Write what **Alora shows** and what the **document shows**.
- 2** Write the document name and date. Sign and give the form to the Administrator.
- 3** Wait for the Administrator's **approval** before any change.

WHAT YOU SHOULD SEE

A filled-in Record Correction Request form.

DO NOT DO THIS

- Do not change a name, birth date or insurance number on your own.
- Do not delete a patient.

ENTER

Only on the paper form: the patient, the field, both values and the document. Nothing in Alora.

CHECK

- Both values are written exactly.

EXPECTED RESULT

The Administrator has your form. No change is made in Alora until approved.

ALORA ACTION **ZENITH PROCESS**

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

Changes to name, date of birth, insurance or physician need the Administrator's OK. A plain spelling mistake that the source document proves can be fixed by intake after the Administrator initials the form.

PROCEDURE P5 · FINISH

Review Patient Demographics

Final verification

- ☐ Name, birth date, address and phone match the source document.
- ☐ Insurance and physician match.
- ☐ I listed every difference on a Record Correction Request.
- ☐ I changed nothing without approval.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- Name or birth date differs from the document.
- The insurance number differs.
- You are asked to change something you cannot prove with a document.
- The patient may already exist under a different spelling.

DO NOT DO THIS (COMMON MISTAKES)

- Do not change clinical information.
- Do not guess a missing detail.
- Do not merge or delete patient records.

TAB 3 · PROCEDURE P5B

Create a New Patient

Purpose

To add a patient who is truly new to Alora, after you prove that the patient is not already there. A duplicate record splits a patient's history in two and can cause wrong care and wrong billing.

Before you start

- ☐ You finished the search in P3 twice and found nothing.
- ☐ The referral, face sheet and insurance card copy.
- ☐ The **Administrator's or DON's OK to admit** (Zenith standard).
- ☐ The **New Patient Check** form (Tab 11). Write your three searches on it.

WHO AND HOW LONG

Who: Trained intake staff only.

Time: 10 minutes.

Steps in this procedure

- 1 Prove the patient is not already in Alora** p. 52
- 2 Open the new patient form** p. 53
- 3 Enter the referral date and the patient's legal details** p. 54
- 4 Enter insurance and physician** p. 55
- 5 Save, then verify the new record** p. 56

No patients found

[wording of this message will vary]

2 Nothing found **VERIFY**

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Search again with a **shorter or different spelling** of the last name.
- 2** Check that the search really found **nothing**.

ENTER

Try the last name only, then the first three letters of the last name, then the date of birth alone if the screen allows it.

CHECK

- Three different searches found nothing.
- You also tried the maiden name or a nickname if the referral lists one.

EXPECTED RESULT

You are sure the patient is new.

WHAT YOU SHOULD SEE

A message that says nothing was found (the wording may vary).

DO NOT DO THIS

- Do not create a patient after a single search.

IF IT DOES NOT LOOK RIGHT: STOP

- Anything close to the name or birth date appears: **stop** and go back to P3.

ALORA ACTION **VERIFY IN LIVE ALORA**

Use the patient search to look for an existing record before you add one.

ZENITH STANDARD

Search three ways before you create a patient.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **new patient button**.

ENTER Nothing to type on this step.

CHECK • You have the Administrator's or DON's OK.

EXPECTED RESULT A blank new patient form opens.

WHAT YOU SHOULD SEE

A form with empty boxes for the patient's details.

IF IT DOES NOT LOOK RIGHT: STOP

- You do not see a new patient button. Your role may not allow it: **stop** and ask.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Alora documents intake, referral tracking and patient admission processing. The button word and place must be verified.

ZENITH STANDARD

Do not start a new patient form without the Administrator's or DON's OK to admit.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 3

Enter the referral date and the patient's legal details

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Type the **referral date** (the day Zenith received the referral).
- 2 Type the patient's **legal last and first name** exactly as on the insurance card.
- 3 Type the **date of birth** as month/day/year.

ENTER

Referral date, legal name, date of birth, address, phone and language from the source documents. Nothing from memory.

CHECK

- Spelling matches the insurance card.
- Date of birth is correct.
- The referral date is the day the referral arrived.

EXPECTED RESULT

The boxes show the information from the document.

WHAT YOU SHOULD SEE

A form with the details filled in. Nothing is saved yet.

DO NOT DO THIS

- Do not guess a missing detail. Leave it blank and ask.
- Do not use nicknames.

ALORA ACTION **VERIFY IN LIVE ALORA**

Enter the patient's details in the new patient form. Box names must be verified.

ZENITH STANDARD

Two people check the legal name and date of birth against the card before you save.

FEDERAL RULE The first nurse visit is due within 48 hours of the referral, so the referral date and time must be correct.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 4

Enter insurance and physician

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Choose or type the **insurance** name.
- 2 Type the **insurance ID** from the card. Check each character.
- 3 Choose the **physician**. Use the lookup if the screen offers one.

WHAT YOU SHOULD SEE

A form with insurance and physician filled in.
Nothing is saved yet.

ENTER

Insurance name and ID from the card copy.
Physician name and NPI from the order.

CHECK

- The ID matches the card.
- The physician matches the order.

EXPECTED RESULT

Insurance and physician are filled in.

ALORA ACTION ALORA FEATURE DOCUMENTEDSCREEN NAMES: VERIFY

Alora documents unlimited insurance entries and a physician lookup from the national NPI registry. Field names and their place must be verified.

ZENITH STANDARD

If the physician is not found, ask the Administrator. Do not type a physician from memory.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 5

Save, then verify the new record

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Check the whole form once more against the documents. Then click **Save** one time and wait.

ENTER

Nothing to type on this step.

CHECK

- Every box matches the source documents.

EXPECTED
RESULT

The new patient's record opens with the name in the banner.

WHAT YOU SHOULD SEE

The patient banner with the correct name, date of birth and a new record number.

IF IT DOES NOT LOOK RIGHT: STOP

An error message appears or the page does not change: do not click Save again. **Stop** and ask the Administrator.ALORA ACTION **VERIFY IN LIVE ALORA**

Save the new patient. The button word and what happens next must be verified.

ZENITH STANDARD

After saving, search for the patient (P3) and confirm that exactly one record exists.

LIVE ALORA CHECK (Administrator): names and places match live Alora.☐ Yes Initials _____ Date _____

PROCEDURE P5B · FINISH

Create a New Patient

Final verification

- ☐ I proved the patient was not already in Alora.
- ☐ I had the Administrator's or DON's OK.
- ☐ Legal name, birth date, insurance and physician match the documents.
- ☐ Searching for the patient now finds exactly one record.
- ☐ I wrote the new record number on the SOC Desk Checklist.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- You found anything close to the name or birth date.
- You do not have the Administrator's or DON's OK to admit.
- A detail is missing or does not match.
- An error message appears when you save.
- You saved twice by mistake.

DO NOT DO THIS (COMMON MISTAKES)

- Do not create a patient to 'test' the system.
- Do not create a patient after only one search.
- Do not click Save more than once.
- Do not merge or delete records.

NOTES

TAB 4 · PROCEDURE P6

Process a Referral

Purpose

A referral is the request that starts care. This procedure shows how to log it the moment it arrives, check that the packet is complete, record it in Alora, and hand it to the DON for the decision. It protects the 48-hour clock.

Before you start

- ☐ The referral packet (fax, e-fax, email or hand delivered).
- ☐ The **SOC Packet Intake Log** and **Referral Review** forms (Tab 11).
- ☐ A pen. The clock or the fax time stamp.

WHO AND HOW LONG

Who: Intake staff.

Time: 15 minutes.

Steps in this procedure

- 1** Write down when the packet arrived p. 60
- 2** Sort the packet and check what is there p. 61
- 3** Review the referral for the basics p. 62
- 4** Find the patient in Alora p. 63
- 5** Record the referral in Alora p. 64
- 6** Give the packet to the DON for the decision p. 65

☐ Missing items: ask the referral source

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Check that the **same name and date of birth** are on every page.
- 2** Check that an **order** for home health is in the packet.
- 3** If everything is complete, check **Send to the DON**. If not, check the **missing items** box and list them.

ENTER

Nothing to type on this step.

CHECK

- You compared names and birth dates on each page.
- You did not guess any missing detail.

EXPECTED RESULT

The packet is either ready for the DON or marked with what is missing.

WHAT YOU SHOULD SEE

A review form with clear marks and, if needed, a list of missing items.

DO NOT DO THIS

- Do not decide whether Zenith can take the patient. The DON decides.
- Do not call the patient to confirm a start date before the DON accepts.

IF IT DOES NOT LOOK RIGHT: STOP

- Names or birth dates differ between pages.
- There is no order.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

Office staff check that the papers are there and match. Office staff do not judge the clinical content.

STEP 4 Find the patient in Alora

Patients

Search by last name Date of birth (if available)

Patient name	Date of birth	Record number	Status
Smith, Mary A.	03/14/1941	R-10482	Active
Smith, Mary	03/14/1914	R-9110	Discharged
Smith, Marie	07/02/1944	R-11236	Pending

Sample data. Not real patients.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Search for the patient exactly as in **P3**.
- 2 Exactly one match: open that row (P4). No match: go to **P5B** only after the DON accepts.

ENTER Nothing to type on this step.

CHECK • Two identifiers match: name and date of birth.

EXPECTED RESULT You have either one matching patient or a confirmed 'no match'.

WHAT YOU SHOULD SEE

One matching row, or a message that no patient was found.

IF IT DOES NOT LOOK RIGHT: STOP

- Two patients match.
- The patient is shown as discharged or active and you did not expect it.

ALORA ACTION VERIFY IN LIVE ALORA

Use the patient search to look for an existing record. Box and button names must be verified.

ZENITH STANDARD

Never create a new patient before the DON has accepted the referral and you have searched three ways (P5B).

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 5 Record the referral in Alora

TAB 4 · PROCEDURE P9

Scan, Name and Identify Documents

Purpose

A clear file name and a clean scan let anyone see what a document is before they open it, and stop a document from going into the wrong chart. This procedure is done before you upload anything.

Before you start

- ☐ The paper document and the patient's name and date of birth.
- ☐ The office scanner.
- ☐ The **Ready to upload** folder on the computer (the Administrator will show you).

WHO AND HOW LONG

Who: Intake and records staff.

Time: 5 minutes for each document.

Steps in this procedure

- 1** Scan with the Zenith settings p. 68
- 2** Name the file the Zenith way p. 69
- 3** Save it in the Ready to upload folder p. 70
- 4** Open the file and check it p. 71

11 FORMS

STEP 1 Scan with the Zenith settings

ZENITH CARE HOME HEALTH, LLC **SCAN SETTINGS**

SET THESE ON THE SCANNER OR SCAN PROGRAM

File type **PDF**

Resolution **300 dpi**

Color **Black and white or grayscale**

One file contains **One patient, one document type**

Sides **Both sides when there is writing on both**

Names of these settings differ by scanner. The values do not.

1 File type
ZENITH FORM

2 Resolution
ZENITH FORM

3 One patient per file
ZENITH FORM

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Set the file type to **PDF**.
- 2** Set the resolution to **300 dpi**.
- 3** Scan **one patient and one document type** in each file.

ENTER Nothing to type on this step.

- CHECK**
- Every page of the document is in the file.
 - Nothing is cut off at the edges.
 - You removed staples and paper clips before scanning.

EXPECTED RESULT A scanned file is ready.

WHAT YOU SHOULD SEE

A scan that shows every page, straight and readable.

DO NOT DO THIS

- Do not scan two patients into one file.
- Do not mix document types in one file.

ALORA ACTION **ZENITH PROCESS**

Not an Alora step. This is a Zenith office step at the scanner.

ZENITH STANDARD

Scanner menu words differ by model. The values in the picture do not. Ask the Administrator if your scanner does not offer one of them.

STEP 2

Name the file the Zenith way

Zenith file name pattern

LASTNAME_FIRSTNAME_DOCUMENTTYPE_YYYYMMDD.pdf

Capital letters. No spaces. Use the underscore _ between the parts.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

ZENITH NAMING STANDARD (DRAFT). NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Type the patient's **last name** in capital letters.
- 2 Type the **first name** in capital letters.
- 3 Type the **document type** word (see the list on this page).
- 4 Type the **date that is on the document** as year, month, day.

WHAT YOU SHOULD SEE

A file name with four parts joined by underscores, ending in .pdf.

DO NOT DO THIS

- Do not use spaces, nicknames or words like 'scan1'.

NOTE

Use the date printed or written on the document (for example the order date), not today's date.

ENTER

LASTNAME_FIRSTNAME_
DOCUMENTTYPE_YYYYMMDD.pdf. No
spaces. Use the underscore between parts.

CHECK

- The name and the date come from the document, not from memory.

EXPECTED
RESULT

A file called, for example, SMITH_MARY_
REFERRAL_20260928.pdf.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith naming standard.

ZENITH STANDARD

Document type words: **REFERRAL, ORDER, F2F, FACESHEET, INSCARD, DISCHARGE, MEDLIST**. Ask the Administrator before you use any other word.

STEP 3

11 FORMS

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Windows screens look a little different on each computer.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Check that the folder path ends in **Ready to upload**.
- 2 Check that your file is listed there with its clear name.

WHAT YOU SHOULD SEE

A folder list that shows your file with a name like
SMITH_MARY_REFERRAL_20260928.pdf.

ENTER Nothing to type on this step.

- CHECK**
- The file is in the right folder.
 - There is no older copy with a similar name.

EXPECTED RESULT The file is waiting in the Ready to upload folder.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Windows folder.

ZENITH STANDARD

Every scanned patient file lives in this one folder until it is uploaded and verified, then it is removed (P28).

STEP 4 Open the file and check it

SMITH_MARY_REFERRAL_20260928.pdf

< Previous **1 of 3** Next >

2 Page count WINDOWS

[Hospital name]

REFERRAL FOR HOME HEALTH

1 Patient name WINDOWS

Patient: Mary Smith DOB: 03/14/1941
Referral date: 09/28/2026

3 Text is readable WINDOWS

Physician: Jane Sample, MD

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. SAMPLE DOCUMENT FOR TRAINING. NOT A REAL REFERRAL.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Find the **patient name** on the page and compare it with the file name.
- 2** Check the **page count**: it matches the paper.
- 3** Check that the text is **readable** when the page is full size.

ENTER Nothing to type on this step.

- CHECK**
- Name on the page = name in the file name.
 - All pages are present.
 - You can read every word.

EXPECTED RESULT You know the file is correct and readable before you upload it.

WHAT YOU SHOULD SEE

A viewer with the page in front of you and the page count at the top.

IF IT DOES NOT LOOK RIGHT: STOP

- The name on the page is not the name in the file name.
- A page is missing.

ALORA ACTION **ZENITH PROCESS**

Not an Alora step. Any PDF viewer on the office computer will do.

ZENITH STANDARD

A file you cannot read is not uploaded. Scan it again.

PROCEDURE P9 · FINISH

Scan, Name and Identify Documents

Final verification

- ☐ The scan has every page and is readable.
- ☐ The file name has four parts: last name, first name, document type, date.
- ☐ The file is in the Ready to upload folder.
- ☐ I opened the file and checked the name and the pages.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- You are not sure which patient a page belongs to.
- A page has a different patient's name.
- You are not sure which document type word to use.
- The scanner or folder is missing.

DO NOT DO THIS (COMMON MISTAKES)

- Do not name a file from memory.
- Do not put two patients in one file.
- Do not save patient files on the desktop or in Downloads.

STEP 1 Find the patient

1 Search (P3) **VERIFY**

2 Correct patient **VERIFY**

Patient name	Date of birth	Record number	Status
Smith, Mary A.	03/14/1941	R-10482	Active
Smith, Mary	03/14/1914	R-09110	Discharged
Smith, Marie	07/02/1944	R-11236	Pending

Sample data. Not real patients.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Search by last name and date of birth, as in P3.
- 2 Choose the row where **name and date of birth** match the file.

ENTER Nothing to type on this step.

CHECK • Two identifiers match the file name and the document.

EXPECTED RESULT You know the right patient.

WHAT YOU SHOULD SEE

One matching row in the list.

IF IT DOES NOT LOOK RIGHT: STOP

- Two rows match.
- No row matches.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Use the patient search.

ZENITH STANDARD

Follow P3 exactly. Do not skip the two-identifier check.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

ALORA FEATURE

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **documents** section under the patient banner.

WHAT YOU SHOULD SEE

The patient name at the top. A list of documents underneath, or an empty list.

ENTER Nothing to type on this step.

CHECK

- The section you opened shows documents, not orders or visits.

EXPECTED RESULT The patient's document list opens.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents paperless records (scanned document storage) for patients. The section name and its place must be verified.

ZENITH STANDARD

If you cannot find the documents section, do not use another section. Ask the Administrator.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 4 Start the upload

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **add or upload button** in the document list.
- 2 First look at the list: is this document **already there**? Do not add a second copy.

ENTER Nothing to type on this step.

CHECK • The list does not already hold the same document.

EXPECTED RESULT A window or a form opens to add a document.

WHAT YOU SHOULD SEE

A window titled like 'Add document', with a place to choose a file and a place to choose a type.

DO NOT DO THIS

- Do not upload a document that is already in the list.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find an add or upload button.

ALORA ACTION VERIFY IN LIVE ALORA

Start an upload from the patient's documents. The button name must be verified.

ZENITH STANDARD

Duplicates are not allowed. If it is already there, skip to step 8 to check it and stop.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 5

Choose the file on the computer

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Windows screens look a little different on each computer.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click your **file** in the list. Look for the name you gave it in P9.
- 2 Check that the **file name** box shows the right name.
- 3 Click **Open**.

WHAT YOU SHOULD SEE

Back in Alora, the upload window now shows the file name.

DO NOT DO THIS

- Do not pick a file from Downloads or the desktop.

ENTER

Nothing to type on this step.

CHECK

- The file name is the one for this patient.
- You are in the Ready to upload folder.

EXPECTED RESULT

The window closes and the file name appears in the upload window.

ALORA ACTION **ZENITH PROCESS**

Not an Alora screen. This is the standard Windows 'Open' window that Alora opens when you choose a file.

ZENITH STANDARD

Choose only from the Ready to upload folder.

STEP 6 Choose the document type

1 Document type list

2 Type that matches

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

The real type list is set by Alora and Zenith. Verify it in live Alora.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **document type list**.
- 2 Click the type that **matches the document**: Referral, Physician order or Face-to-face.

ENTER The type from your file name. If the exact type is not in the list, do not guess.

CHECK • The type matches the document you are holding.

EXPECTED RESULT The type you chose shows in the box.

WHAT YOU SHOULD SEE

The type box shows one type, for example 'Referral'.

DO NOT DO THIS

- Do not choose 'Other' unless the Administrator told you to.

IF IT DOES NOT LOOK RIGHT: STOP

- No type in the list matches the document.

ALORA ACTION VERIFY IN LIVE ALORA

Choose the document type or category. The real list of types in Zenith's Alora must be verified and copied on the Live Alora Verification Worksheet.

ZENITH STANDARD

Use the document type that matches your file name word. If Alora has no matching type, **stop** and ask the Administrator to tell you which to use.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 7 Check everything, then Save

1 File is the right one → **Choose file** (SMITH_MARY_REFERRAL_20260928.pdf) **VERIFY**

2 Type is right → **Referral** **VERIFY**

3 Document date → **Document date** **VERIFY**

4 Save **VERIFY**

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Check the **file name** is the right one.
- 2** Check the **document type** is right.
- 3** Type the **document date** from the paper if the window asks for it.
- 4** Click **Save** one time and wait.

ENTER

The date that is on the document, as month/day/year.

CHECK

- The patient is correct.
- The file, the type and the date are correct.

EXPECTED RESULT

The window closes and you are back in the document list.

WHAT YOU SHOULD SEE

The document list, now with one more row.

DO NOT DO THIS

- Do not click Save more than once.
- Do not save if you are unsure about the patient.

IF IT DOES NOT LOOK RIGHT: STOP

An error message appears: do not click Save again. **Stop** and ask the Administrator.

ALORA ACTION **VERIFY IN LIVE ALORA**

Save the upload. The button name and what happens next must be verified.

ZENITH STANDARD

One last check before you save: right patient, right file, right type, right date.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

A Document Problem Report with one or more boxes checked.

DO NOT DO THIS

- Do not delete, rename or re-upload before the Administrator decides.

IF IT DOES NOT LOOK RIGHT: STOP

- A document is in the wrong patient's chart: tell the Administrator **now**.

ALORA ACTION **ZENITH PROCESS**

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

A document in the wrong chart is a privacy problem. Tell the Administrator **at once**.

PROCEDURE P10 · FINISH

Verify Uploaded Documents

Final verification

- ☐ I opened every document I uploaded.
- ☐ The name and date of birth on the pages match the chart.
- ☐ The document type and date are right.
- ☐ All pages open and are readable.
- ☐ Nothing is in the chart twice.
- ☐ I initialed the Document Verification form.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- A document is in the wrong patient's chart.
- A document will not open or cannot be read.
- You find a duplicate.
- The type in the list does not match the paper.

DO NOT DO THIS (COMMON MISTAKES)

- Do not delete a clinical document unless the Administrator or DON tells you.
- Do not assume it is fine because the upload finished.
- Do not remove the scan file until the document is verified.

Review Physician Orders

Purpose

Care must follow a physician's order. Office staff check that the order is in the chart, is for the right patient, is signed and dated, and has been given to the DON. Office staff never decide what the order means for care.

Before you start

- ☐ The order is uploaded and verified (P8, P10).
- ☐ The **Order Review Sheet** (Tab 11).
- ☐ The paper order, if you have it.

WHO AND HOW LONG

Who: Intake staff and a second person for verification.

Time: 10 minutes.

Steps in this procedure

- 1 Find the order in the patient's documents** p. 91
- 2 Check who it is for and what it says** p. 92
- 3 Check the signature, the date and the NPI** p. 93
- 4 Check the pending orders list in Alora** p. 94
- 5 Write your review and give it to the DON** p. 95

Date signed: 09/27/2026

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. SAMPLE DOCUMENT FOR TRAINING. NOT A REAL ORDER.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Check the **patient name and date of birth** against the chart.
- 2 Read **what is ordered**. It must ask for home health care.
- 3 Check the **date of the order**.

ENTER Nothing to type on this step.

- CHECK**
- Name and date of birth match.
 - The order says what care is requested.
 - The date is readable.

EXPECTED RESULT You know the order is for the right patient and what it asks for.

WHAT YOU SHOULD SEE

An order with the patient name, the ordered care and a date.

DO NOT DO THIS

- Do not change the order or add anything.
- Do not decide if the ordered care is right. That is for the DON.

IF IT DOES NOT LOOK RIGHT: STOP

- The name or date of birth is different.
- You cannot tell what is ordered.

ALORA ACTION ZENITH PROCESS

Not an Alora step. You are reading a document.

ZENITH STANDARD

Office staff check that the order exists and matches. The DON decides what it means.

PROCEDURE P11 · FINISH

Review Physician Orders

Final verification

- ☐ The order is in the chart and opens.
- ☐ Name and date of birth on the order match the chart.
- ☐ The order is signed and dated, or the gap is written on the sheet.
- ☐ I checked the pending orders list in Alora.
- ☐ The DON has the order and my sheet.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- The order is not signed or not dated.
- The patient name or date of birth differs.
- You are not sure what the order asks for.
- The order asks for something that seems different from the referral.
- A verbal order was given and there is no written record.

DO NOT DO THIS (COMMON MISTAKES)

- Do not change, add to or sign an order.
- Do not guess what an order means.
- Do not schedule visits from an order the DON has not seen.

Review Face-to-Face Documentation

Purpose

For Medicare home health, a physician or allowed practitioner must have seen the patient face to face, close to the start of care. Office staff check that the paper exists, is in the right window, and is uploaded. The DON decides if it is enough.

Before you start

- ☐ The face-to-face document is uploaded and verified (P8, P10).
- ☐ The **planned start of care (SOC) date**.
- ☐ The **Face-to-Face Review Sheet** (Tab 11).

WHO AND HOW LONG

Who: Intake staff, then the DON.

Time: 10 minutes.

Steps in this procedure

- 1 Find the face-to-face document** p. 98
- 2 Find the visit date and who saw the patient** p. 99
- 3 Check the date window** p. 100
- 4 Check that the reason and the signature are there** p. 101
- 5 Write your review and give it to the DON** p. 102

9 ROUTINES

10 PROBLEMS

11 FORMS

The SOC clocks

Five time limits start when a referral arrives or care starts. Missing one can delay care or reduce payment. Write the dates on the SOC Desk Checklist the day the packet arrives.

CLOCK	STARTS	DUE	WHO WATCHES
First nurse visit (initial assessment)	The referral arrives, or the patient returns home	Within 48 hours , or on the start of care date the physician ordered	Intake, then the DON
Face-to-face visit (paper)	Start of care date	The visit happened 90 days before to 30 days after the start of care	Intake staff, then the DON
Comprehensive assessment (OASIS)	Start of care date	Finished within 5 calendar days after the start of care	The assessing nurse, then the DON
OASIS sent	The day the assessment is finished	Sent within 30 days	QA
NOA (Notice of Admission)	Start of care date	Sent within 5 calendar days of the start of care. Late NOAs reduce payment for each late day.	Billing

HOW TO USE THIS PAGE

- On the day a referral arrives, write the **48-hour deadline** at the top of the SOC Desk Checklist (Tab 11).
- When the SOC visit is scheduled, write the **NOA due date** (SOC date plus 5 calendar days).
- Count calendar days, not business days. Weekends and holidays count.
- The Administrator confirms these rules each year. If this page and the Administrator disagree, follow the Administrator.

FEDERAL RULE

These clocks come from the Medicare Conditions of Participation for home health agencies and the Medicare home health payment rules. The initial assessment visit is due within 48 hours of the referral (or of the patient's return home), or on the start of care date ordered by the physician. The comprehensive assessment is due within 5 calendar days after the start of care.

STOP AND ASK THE ADMINISTRATOR OR DON IF

- A clock will be missed or is already missed.
- The physician wants a start date that is later than 48 hours.
- The patient asks to start later.
- You are not sure which date to count from.

SOC Stage Guide (14 stages)

Purpose

One picture page for each of the 14 stages of a Start of Care, in the order you do them. Each stage tells you where to look, what to click, and what to check. Where a stage has its own full procedure, the page tells you which one and where to find it.

Before you start

- ☐ A referral packet for a new patient.
- ☐ A **SOC Desk Checklist** (Tab 11). Fill in one for each patient. Initial each stage as you finish it.
- ☐ You are signed in to Alora (P1) and know your way around the dashboard (P2).

WHO AND HOW LONG

Who: Intake staff (stages 1 to 9), scheduler and DON (10), office team and billing (11 to 14).

Time: Stages 1 to 9: about 1 hour of office time.
Stage 10: 15 minutes. Stages 11 to 14: a few minutes on each day.

Steps in this procedure

- 1** Receive the packet p. 108
- 2** Review the packet p. 109
- 3** Find the patient, or create one only if allowed p. 110
- 4** Open the patient record p. 111
- 5** Upload the documents p. 112
- 6** Verify the documents p. 113
- 7** Enter and verify patient information p. 114
- 8** Verify the physician order p. 115
- 9** Verify the face-to-face documentation p. 116
- 10** Prepare and schedule the SOC visit p. 117
- 11** Verify that the clinical workflow is in place p. 118
- 12** Monitor the SOC visit p. 119
- 13** Run the QA check p. 120
- 14** Check billing readiness and the NOA p. 121

STEP 1 Receive the packet

ZENITH CARE HOME HEALTH, LLC
SOC PACKET INTAKE LOG

WHEN AND HOW IT ARRIVED

Date and time received: _____

How received (fax, e-fax, email, hand): _____

Sent by (name and phone): _____

Number of pages: _____

LOGGED BY

Employee: _____ Initials: _____

1

Date and time
ZENITH FORM

2

How it arrived
ZENITH FORM

3

Page count
ZENITH FORM

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.
ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Write the **date and time** the packet arrived.
- 2 Write **how** it arrived and who **sent** it.
- 3 Count the pages and write the **number of pages**.

ENTER

On the paper log only. Nothing in Alora yet.

CHECK

- The time is the real arrival time. Use the fax time stamp if there is one.
- The page count matches the pages you hold.

EXPECTED RESULT

One new line on the intake log, and the 48-hour deadline written on the SOC Desk Checklist.

WHAT YOU SHOULD SEE

The intake log with the date, the time, the sender and the page count.

DO NOT DO THIS

- Do not leave the time blank.
- Do not round the time.

NOTE

Full procedure: **P6, p. 59**.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

FEDERAL RULE

The first nurse visit is due within 48 hours of the referral, so the arrival time must be exact.

ZENITH STANDARD

Log every packet within 15 minutes of arrival.

STEP 2 Review the packet

ZENITH CARE HOME HEALTH, LLC **REFERRAL REVIEW**

IDENTITY AND CONTACT

☐ Same name and date of birth on every page **1 Same name on every page** ZENITH FORM

☐ Address and phone are written and readable

CARE REQUEST

☐ Order asks for home health (services stated) **2 Order in the packet** ZENITH FORM

☐ Insurance or payer is stated

☐ Preferred language is written (or asked)

DECISION FOR THE DON

☐ Complete: send to the DON **3 Send to the DON** ZENITH FORM

☐ Missing items: ask the referral source

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Check the **same name and birth date** are on every page.
- 2** Check that a **physician order** for home health is in the packet.
- 3** Complete: check **Send to the DON**. Missing items: list them and call the referral source.

ENTER Nothing to type on this step.

- CHECK**
- You compared every page.
 - You did not guess anything that is missing.

EXPECTED RESULT The packet is with the DON, or marked with what is missing.

WHAT YOU SHOULD SEE

A review form with clear marks and, if needed, a list of missing items.

DO NOT DO THIS

- Do not decide if Zenith can take the patient. The DON decides.
- Do not call the patient to promise a start date.

IF IT DOES NOT LOOK RIGHT: STOP

- Names or birth dates differ between pages.
- There is no order.

NOTE

Full procedure: **P6, p. 59**.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

Office staff check that the papers are there and match. The DON decides.

STEP 3

Find the patient, or create one only if allowed

The screenshot shows the 'Patients' section of the Alora interface. A sidebar on the left contains links: Dashboard, Patients (selected), Schedule, Clinical, QA, Billing, Reports, Staff, and Messages. The main area has a search bar with a magnifying glass icon and a search button. Below the search bar is a table of patients. Red callouts with numbers 1, 2, and 3 indicate the steps: 1 points to the search box, 2 points to the first row of the table, and 3 points to the '+ New' button. A 'VERIFY' label is placed near the search box and the first row. A 'New: only after P5B' callout points to the '+ New' button. A 'ALORA FEATURE' label is also present near the '+ New' button.

Search by last name: Date of birth (if available):

Patient name	Date of birth	Record number	Status
Smith, Mary A.	03/14/1941	R-10482	Active
Smith, Mary	03/14/1914	R-9110	Discharged
Smith, Marie	07/02/1944	R-11236	Pending

Sample data. Not real patients.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Search by last name and date of birth.
- 2 Exactly one match: **open that row**.
- 3 No match: **stop** here. Go to P5B only after the DON has accepted and you searched three ways. Do not click New before that.

ENTER Nothing to type on this step.**CHECK** • Two identifiers match: name and date of birth.**EXPECTED RESULT** You have one matching record, or a confirmed 'no match'.

WHAT YOU SHOULD SEE

One matching row, or a message that no patient was found.

DO NOT DO THIS

- Do not click **New** because the first search found nothing.
- Do not open a row if two patients look alike.

IF IT DOES NOT LOOK RIGHT: STOP

- Two patients match.
- The patient is shown as active or discharged and you did not expect it.

NOTE

Full procedures: **P3**, p. 35, and **P5B**, p. 51.ALORA ACTION **VERIFY IN LIVE ALORA**

Use the patient search. Box and button names must be verified.

ZENITH STANDARD

A duplicate patient is one of the most costly office mistakes. Search three ways before you create anyone.

LIVE ALORA CHECK (Administrator): names and places match live Alora.☐ Yes Initials _____ Date _____

STEP 4 Open the patient record

The screenshot shows the Alora web interface. On the left is a sidebar menu with options: Dashboard, Patients (selected), Schedule, Clinical, QA, Billing, Reports, Staff, and Messages. The main content area displays a patient banner for "Smith, Mary A." with "DOB 03/14/1941" and "Record R-10482". A green "Active" status and "[payer]" are also visible. Below the banner are tabs for Summary, Demographics, Documents (highlighted with a red box and arrow labeled "3 Documents section ALORA FEATURE"), Orders, Schedule, Clinical, and Billing. Annotations include: "1 Name matches" pointing to the patient name, "2 Birth date matches" pointing to the birth date, and "VERIFY" buttons next to the name and birth date fields. A search bar and user profile "[your name]" are at the top.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Read the **name** at the top. It must be the name in the packet.
- 2 Read the **date of birth** and record number.
- 3 Note where the **Documents** section is. You use it next.

ENTER Nothing to type on this step.

CHECK • Name and date of birth match the referral.

EXPECTED RESULT The correct patient record is open.

WHAT YOU SHOULD SEE

The patient banner with the same name and birth date as the packet.

DO NOT DO THIS

- Do not go on if the name is even slightly different.

IF IT DOES NOT LOOK RIGHT: STOP

- The name or birth date does not match.

NOTE

Full procedure: **P4, p. 40.**

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Open the patient record. Section names must be verified.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

ZENITH STANDARD

Write the record number on the SOC Desk Checklist.

STEP 5 Upload the documents

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **add or upload button** in the Documents section.
- 2 First look at the list: is the document **already there?**

ENTER Nothing to type on this step.

CHECK

- You are in the correct patient's record.
- The document is not already listed.

EXPECTED RESULT An upload window opens.

WHAT YOU SHOULD SEE

A window to choose a file and a document type.

DO NOT DO THIS

- Do not upload before you confirm the patient name in stage 4.
- Do not upload a document that is already listed.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find an add or upload button.

NOTE

Full procedure with pictures for each document:
SOC Document Upload, p. 123.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Start an upload from the patient's documents. The button name must be verified.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

ZENITH STANDARD

Upload the referral, the physician order and the face-to-face documentation. Each has its own type.

STEP 6 Verify the documents

Training Mockup. Not an Alora Screenshot.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Look at the **list** of documents. Your uploads are there.
- 2 Check the **type** column: each document has the right type.

ENTER Nothing to type on this step.

- CHECK**
- Every document is listed once.
 - You opened each document and read the patient name.

EXPECTED RESULT Every document is in the chart once, with the right type, and opens.

WHAT YOU SHOULD SEE

A list with a row for each document you uploaded.

DO NOT DO THIS

- Do not assume it is fine because the upload finished.

IF IT DOES NOT LOOK RIGHT: STOP

- A document is in the wrong chart: tell the Administrator **now**.

NOTE

Full procedure: **P10, p. 83**.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

The document list shows what is stored in the chart.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

ZENITH STANDARD

A second person verifies orders and face-to-face documents.

STEP 7 Enter and verify patient information

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Check the **last name** against the referral.
- 2** Check the **date of birth**.
- 3** Check the **address**.
- 4** Check the **phone** number.

ENTER Nothing to type on this step.

- CHECK**
- Each item matches the referral and the face sheet.
 - Insurance and physician (next page of the record) also match.

EXPECTED RESULT The demographics match the documents, or you reported a difference.

WHAT YOU SHOULD SEE

A demographics section with the patient's details.

DO NOT DO THIS

- Do not change a detail because it looks wrong. Report it.
- Do not guess a missing detail.

IF IT DOES NOT LOOK RIGHT: STOP

- A detail in Alora is different from the document.

NOTE

Full procedure: **P5, p. 45.**

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Open the demographics section. The field names must be verified.

ZENITH STANDARD

Office staff enter and check administrative information. A change to a clinical detail needs the DON.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

2 Physician name VERIFY

3 Status VERIFY

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the **order row** in the patient's Orders section.
- 2 Check the **physician** name.
- 3 Check the **status**: it matches the paper.

ENTER Nothing to type on this step.

- CHECK**
- The order is for this patient and asks for home health.
 - It is signed and dated.

EXPECTED RESULT You know the order is present and signed, and the DON has it.

WHAT YOU SHOULD SEE

An order with a status and the physician's name.

DO NOT DO THIS

- Do not change, add to or sign an order.
- Do not decide what an order means.

IF IT DOES NOT LOOK RIGHT: STOP

- The order is not signed or not dated.
- The patient name differs.

NOTE

Full procedure: **P11, p. 90.**

ALORA ACTION VERIFY IN LIVE ALORA

Open the orders for the patient. The section name must be verified.

ZENITH STANDARD

Every new order goes to the DON the same day.

The face-to-face visit window (example dates)

The encounter must be inside this window.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

EXAMPLE DATES ONLY. NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the **date of the face-to-face visit** on the document.
- 2 Check it is between 90 days before and 30 days after the **start of care date**.

ENTER

Nothing to type on this step.

CHECK

- You counted the days with a calendar.
- The document has findings and a signature.

EXPECTED RESULT

The visit date is inside the window, or the DON knows it is not.

WHAT YOU SHOULD SEE

A timeline with the visit date inside the colored window.

DO NOT DO THIS

- Do not guess a date that is not written.
- Do not decide that an outside date is acceptable.

IF IT DOES NOT LOOK RIGHT: STOP

- The date is outside the window.
- There is no signature.

NOTE

Full procedure: **P12, p. 97**.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a check on a document.

ZENITH STANDARD

Tell the DON the same day about any problem. Do not wait for the start of care.

FEDERAL RULE The face-to-face visit must be no more than 90 days before, or up to 30 days after, the start of care and must relate to the main reason for home health.

STEP 10

Prepare and schedule the SOC visit

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Choose the **patient**.
- 2 Choose the **visit type**: start of care.
- 3 Enter the **date** agreed with the patient.
- 4 Choose the **team member** the DON named.
- 5 Check everything, then click **Save** once.

ENTER

Only what the DON and the patient agreed.
See P13 for the full check.

CHECK

- The nurse is the one the DON named.
- The date is inside the 48-hour limit, or the physician ordered a later date.
- Any alert is read, not ignored.

EXPECTED RESULT

The SOC visit appears on the schedule.

WHAT YOU SHOULD SEE

The visit form with patient, type, date and team member filled in.

DO NOT DO THIS

- Do not schedule before the DON has accepted the referral and named the nurse.
- Do not click Save twice.

IF IT DOES NOT LOOK RIGHT: STOP

- No nurse is free inside the 48 hours.
- An alert says the visit breaks a rule.

NOTE

Full procedures: **P13**, p. 135, and **P14**, p. 145.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Add a visit on the schedule. The form and its names must be verified.

FEDERAL RULE

The first nurse visit is due within 48 hours of the referral, or on the date the physician ordered.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

ZENITH STANDARD

Call the patient to agree the time before you save the visit.

STEP 11

Verify that the clinical workflow is in place

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Only the pending items box is drawn on this picture.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find **plans of care (485)**. The patient's plan will appear after the SOC visit.
- 2 Find **orders** waiting for a signature.
- 3 Find **OASIS**. The start of care OASIS will be listed once the nurse starts it.

ENTER Nothing to type on this step.

- CHECK**
- The SOC visit is on the schedule.
 - Nothing for this patient is unexpectedly waiting.

EXPECTED RESULT You know what is waiting for the nurse or the physician for this patient.

WHAT YOU SHOULD SEE

The dashboard pending items box with counts.

DO NOT DO THIS

- Do not open, edit or complete a clinical form. That is for clinicians.
- Do not change a status.

IF IT DOES NOT LOOK RIGHT: STOP

- An item is waiting longer than the Administrator's limit.
- The SOC visit is not on the schedule.

NOTE

See also **P19, p. 186**.ALORA ACTION **ALORA FEATURE DOCUMENTED****SCREEN NAMES: VERIFY**

Alora documents that pending 485 forms, orders and OASIS are shown together. Where they appear in Zenith's Alora must be verified.

ZENITH STANDARD

Office staff only confirm that the items exist and are moving. Clinicians complete them.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 12

Monitor the SOC visit

Live Monitor

Planned	Team member	Patient	Status
8:00 AM	Aide A	J. D.	In progress, on time
9:00 AM	Nurse B	M. R.	Late, not clocked in
9:30 AM	Aide C	A. L.	No-show
7:00 AM	Therapist D	S. T.	Complete

Sample data. Colors and words can differ in your Alora.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the **SOC visit** in the list on the day.
- 2 Read the **status**: on time, late, no-show or complete.

ENTER Nothing to type on this step.**CHECK**

- The status matches what the nurse tells you.

EXPECTED RESULT You know if the visit happened, is late, or did not happen.

WHAT YOU SHOULD SEE

A list of visits for today with a color and a word for each status.

DO NOT DO THIS

- Do not change a visit status yourself.

IF IT DOES NOT LOOK RIGHT: STOP

- The SOC visit is late or did not happen.

NOTE

Full procedures: **P17, p. 172, and P18, p. 179.**ALORA ACTION **ALORA FEATURE DOCUMENTED****SCREEN NAMES: VERIFY**

Live Monitor shows visits as they happen, with color-coded warnings. Where to open it must be verified.

FEDERAL RULE A late first visit can put the 48-hour deadline at risk.**LIVE ALORA CHECK** (Administrator): names and places match live Alora.☐ Yes Initials _____ Date _____

ZENITH STANDARD

Check at the start of the visit window and again one hour later. Report a late or missed SOC visit to the DON at once.

STEP 13 Run the QA check

Jones, Robert	Plan of care (485)	09/30/2026	Needs correction
Lee, Ana	Visit note	09/29/2026	Approved

Sample data. Not real patients.

Return for correction

1 Find the patient's item ALORA FEATURE

2 Status ALORA FEATURE

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the patient's **item** in the QA list.
- 2 Read its **status**. 'Needs correction' means it goes back.

ENTER Nothing to type on this step.

- CHECK**
- Every SOC item for this patient is listed.
 - You checked completeness only, not clinical content.

EXPECTED RESULT Each SOC item is approved, or sent back with a reason.

WHAT YOU SHOULD SEE

A QA list with a status for each item.

DO NOT DO THIS

- Do not approve a clinical item yourself.
- Do not change clinical content.

IF IT DOES NOT LOOK RIGHT: STOP

- An item is missing.
- An item needs correction and you are not sure who should fix it.

NOTE

Full procedure: **P20, p. 193.**

ALORA ACTION ALORA FEATURE DOCUMENTED

Sample data. Not real patients.

1 Find the patient's row

2 NOA status

VERIFY

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the patient's **row** in the NOA list.
- 2 Read the **NOA status**. Send the NOA if it is due and you are allowed to.

ENTER Nothing to type on this step.

- CHECK**
- The NOA is sent within 5 calendar days of the start of care.
 - The NOA due date is on the SOC Desk Checklist.

EXPECTED RESULT The NOA is sent and accepted, or the billing person knows it is due.

WHAT YOU SHOULD SEE

A list with the start of care date, the due date and the NOA status.

DO NOT DO THIS

- Do not send an NOA for a patient who has not started care.
- Do not wait for the last day.

IF IT DOES NOT LOOK RIGHT: STOP

- The NOA is close to the 5-day limit and not sent.
- The NOA was rejected.

NOTE

Full procedures: **P21, p. 201**, and **P22, p. 207**.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents an NOA widget and one-click NOA creation. Where they are in Zenith's Alora must be verified.

FEDERAL RULE The NOA is due within 5 calendar days of the start of care. A late NOA reduces payment for each late day.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

PROCEDURE P7 · FINISH

SOC Stage Guide (14 stages)

Final verification

- ☐ Stages 1 to 9 are initialed on the SOC Desk Checklist.
- ☐ The SOC visit is on the schedule, with a nurse the DON named, inside the 48-hour limit.
- ☐ Nothing is waiting for the nurse or physician that I did not report.
- ☐ The NOA due date is written on the checklist and tracked.
- ☐ Any unresolved item is written on the checklist and the Administrator or DON has been told.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed
 ☐ Information saved
 ☐ Correct patient
 ☐ Correct documents
 ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- The 48-hour deadline cannot be met.
- Any stage reports a problem you cannot resolve with this manual.
- A document is in the wrong chart.
- The order or face-to-face documentation is missing or not valid.

DO NOT DO THIS (COMMON MISTAKES)

- Do not skip a stage.
- Do not start a later stage because an earlier one is slow.
- Do not mark a box on the checklist for something you did not do.

TAB 5 · PROCEDURE P7U

SOC Document Upload

Purpose

To put the three documents of a Start of Care packet into the **correct patient's** chart in Alora, each under its own document type, and to prove they are there. The three documents are the **referral**, the **physician order** and the **face-to-face documentation**. Alora documents scanned-document storage for patients; every button name here must be verified in live Alora.

Before you start

- ☐ The three files are scanned, named and checked, and waiting in **Ready to upload** (P9): referral, order, face-to-face.
- ☐ The packet paper. The patient's name and date of birth.
- ☐ You are signed in (P1).

WHO AND HOW LONG

Who: Trained intake staff. A second person verifies orders and face-to-face.

Time: About 20 minutes for all three documents.

Steps in this procedure

- | | | |
|-----------|---|--------|
| 1A | Find the correct patient | p. 124 |
| 1B | Open the record and confirm who it is | p. 125 |
| 2 | Open the patient's document area | p. 126 |

Smith, Mary A.	03/14/1941	R-10482	Active
Smith, Mary	03/14/1914	R-09110	Discharged
Smith, Marie	07/02/1944	R-11236	Pending

Sample data. Not real patients.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Type the patient's **last name** and **date of birth** in the search box.
- 2 Read the **name** in the results. Check it against the packet.
- 3 Click the **row** to open the patient record.

ENTER

Last name and date of birth, as written on the referral.

CHECK

- Only one row matches the name and date of birth.
- If there are two, **stop**.

EXPECTED RESULT

The patient record opens.

WHAT YOU SHOULD SEE

A results list with one row that matches your packet.

DO NOT DO THIS

- Do not open a row just because the name looks close.

IF IT DOES NOT LOOK RIGHT: STOP

- Two patients match.
- No patient matches.

NOTE

Full procedure: **P3, p. 35**.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Use the patient search and open the record. Box and row names must be verified.

ZENITH STANDARD

Two identifiers must match: name and date of birth.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐

Yes

Date

STEP 1B

Open the record and confirm who it is

The screenshot shows a web browser window with the address bar displaying "[Zenith's Alora web address]". The page has a header with a logo, a search bar, and a user profile "[your name]". A left sidebar contains a menu with items: Dashboard, Patients (highlighted), Schedule, Clinical, QA, Billing, Reports, Staff, and Messages. The main content area displays a patient banner for "Smith, Mary A." with a "Name matches" label and a "Birth date matches" label. Below the banner is a "DOB 03/14/1941 Record R-10482" and a "VERIFY" button. A "Summary" tab is selected, showing sub-tabs for Demographics, Documents, Orders, Schedule, Clinical, and Billing. A "TRAINING MOCKUP. NOT AN ALORA SCREENSHOT." banner is at the bottom of the interface.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Read the **name** in the banner. It must be the name in the file names.
- 2 Read the **date of birth**. It must be the date on the documents.

ENTER Nothing to type on this step.

CHECK • Name and date of birth match every document you will upload.

EXPECTED RESULT You are in the right chart before you upload anything.

WHAT YOU SHOULD SEE

The patient banner with the same name and birth date as the packet.

DO NOT DO THIS

- Do not upload anything if the name is even slightly different.

IF IT DOES NOT LOOK RIGHT: STOP

- Name or birth date does not match: close the record and ask the Administrator.

NOTE

Full procedure: **P4, p. 40.**

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY
Open the patient record.

ZENITH STANDARD

Verify the document belongs to this patient **before** you upload it.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 2 Open the patient's document area

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **Documents** section below the patient name.
- 2 Look at the patient's **document list**. A new patient often has an empty list.

ENTER Nothing to type on this step.

- CHECK**
- The section you opened shows documents, not orders or visits.
 - Note any document already listed. You will not add it twice.

EXPECTED RESULT The document list for this patient.

WHAT YOU SHOULD SEE

The patient name at the top. A list of documents underneath, or an empty list.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find a documents section.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Alora documents paperless records (scanned document storage). The section name and its place must be verified.

ZENITH STANDARD

If you cannot find the documents section, do not use another section. Ask the Administrator.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 3A

Referral: click Add, then Choose file

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **add or upload button** in the document list. A window opens.
- 2 In the window, click **Choose file**. A Windows window opens (next page).

ENTER Nothing to type on this step.

- CHECK**
- You are still in the correct patient's Documents section.
 - The window you opened says it adds a document.

EXPECTED RESULT The upload window is open. No file is chosen yet.

WHAT YOU SHOULD SEE

An upload window with 'No file chosen', and the document list behind it.

DO NOT DO THIS

- Do not click Save yet.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find an add or upload button.
- No window opens.

ALORA ACTION **ALORA FEATURE DOCUMENTED****SCREEN NAMES: VERIFY**

Start an upload, then choose a file. The names of both buttons must be verified.

ZENITH STANDARD

Open the window only after you confirmed the patient name (step 1B).

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 3B

Referral: pick the file in the Windows window

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Windows screens look a little different on each computer.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click your **referral file**.
- 2 Check that the **file name** box shows the same name.
- 3 Click **Open**.

ENTER

Nothing to type on this step.

CHECK

- The file name starts with the patient's last name and ends with REFERRAL and a date.
- You are in the Ready to upload folder.

EXPECTED RESULT

The window closes and the file name appears in the upload window.

WHAT YOU SHOULD SEE

Back in Alora, the upload window now shows the referral file name.

DO NOT DO THIS

- Do not pick a file from Downloads or the desktop.

ALORA ACTION **ZENITH PROCESS**

Not an Alora screen. This is the standard Windows 'Open' window. It appears when you click Choose file.

ZENITH STANDARD

Choose only from the Ready to upload folder. You use this same window for the order and the face-to-face document.

STEP 3C

Referral: choose the type, check, and Save

The screenshot shows a web browser window with the Alora interface. A modal titled 'Add document' is open. It contains the following fields and controls:

- File:** A 'Choose file' button. A red circle with '1' points to it, with the text 'File is the referral' and a 'VERIFY' tag.
- Document type:** A dropdown menu showing 'Referral'. A red circle with '2' points to it, with the text 'Type: Referral' and a 'VERIFY' tag.
- Document date:** A text field showing '09/28/2026'. A red circle with '3' points to it, with the text 'Document date' and a 'VERIFY' tag.
- Description / notes (if offered):** An empty text area.
- Buttons:** 'Cancel' and 'Save' buttons. A red circle with '4' points to the 'Save' button, with the text 'Save' and a 'VERIFY' tag.

Background elements include a sidebar with 'Patients', 'Clinical', 'QA', 'Billing', 'Reports', 'Staff', and 'Messages'. The main area shows patient information for 'Smith, Mary' and a table of documents.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Check that the **file** is the referral.
- 2 Choose the document type **Referral**.
- 3 Type the **document date** from the referral.
- 4 Check everything. Click **Save** once.

ENTER

Type: Referral. Document date: the date on the referral, as month/day/year.

CHECK

- File name is the referral file.
- Type is Referral.
- Document date matches the paper.
- The patient name at the top of the chart is correct.

EXPECTED RESULT

The window closes. The referral is in the list.

WHAT YOU SHOULD SEE

An upload window with the file name, the type Referral and a date.

DO NOT DO THIS

- Do not click Save more than once.
- Do not choose 'Other' unless the Administrator told you to.

IF IT DOES NOT LOOK RIGHT: STOP

No type matches, or an error message appears: do not click Save. **Stop** and ask the Administrator.

- No document type matches.
- An error message appears.

ALORA ACTION VERIFY IN LIVE ALORA

Choose a document type, set a date and save. Every button name and the list of types must be verified.

ZENITH STANDARD

One last check before Save: right patient, right file, right type, right date.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 4 Physician order: add, choose, type, date, Save

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **add or upload button**.
- 2 Click **Choose file** and pick the **order file** (as in 3B).
- 3 Choose the document type **Physician order**.
- 4 Type the **document date**: the date the physician wrote the order.
- 5 Check everything. Click **Save** once.

ENTER

Type: Physician order. Document date: the date on the order, as month/day/year.

CHECK

- File name ends with ORDER and the order date.
- Type is Physician order.
- Document date matches the order.

EXPECTED RESULT

The order is in the list, under the referral.

WHAT YOU SHOULD SEE

The upload window with the order file and the type Physician order. Behind it, one document already listed.

DO NOT DO THIS

- Do not use the type for referral or face-to-face.
- Do not sign or change the order.

IF IT DOES NOT LOOK RIGHT: STOP

- No type matches a physician order.

ALORA ACTION VERIFY IN LIVE ALORA

Same upload steps as the referral. The type name must be verified.

ZENITH STANDARD

A physician order is always uploaded under its own type so the DON can find it.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 5 Face-to-face: add, choose, type, date, Save

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **add or upload button**.
- 2 Click **Choose file** and pick the **face-to-face file** (as in 3B).
- 3 Choose the document type **Face-to-face**.
- 4 Type the **document date**: the date of the face-to-face visit.
- 5 Check everything. Click **Save** once.

ENTER

Type: Face-to-face. Document date: the date of the face-to-face visit.

CHECK

- File name ends with F2F and the visit date.
- Type is Face-to-face.
- Document date is the visit date.

EXPECTED RESULT

The face-to-face document is in the list, under the order.

WHAT YOU SHOULD SEE

The upload window with the face-to-face file and its type. Behind it, two documents already listed.

DO NOT DO THIS

- Do not upload a face-to-face document from a different patient.
- Do not skip it because the order is signed.

IF IT DOES NOT LOOK RIGHT: STOP

- No type matches face-to-face documentation.
- There is no face-to-face document: tell the DON the same day.

ALORA ACTION VERIFY IN LIVE ALORA

Same upload steps. The type name must be verified.

ZENITH STANDARD

Upload the face-to-face documentation when the payer requires it. Medicare home health requires it.

FEDERAL RULE

Medicare home health requires a face-to-face encounter documented in the record.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

Verify in the same session. Do not leave it for later.

STEP 6B

Verify: open each document

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

The real document viewer and its buttons must be verified in live Alora.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click a **document** to open it. Find the **patient name** on the page.
- 2 Find the **page count**. Look at every page.

ENTER

Nothing to type on this step.

CHECK

- The document opens and is not blank or cut off.
- The name on the page is the patient in the banner.
- Repeat for all three documents.

EXPECTED RESULT

All three documents open and show the right patient.

WHAT YOU SHOULD SEE

A document viewer with the patient name and the page count.

DO NOT DO THIS

- Do not remove the scan file from the folder until all three are verified.

IF IT DOES NOT LOOK RIGHT: STOP

- A document will not open.
- A page shows a different patient.

NOTE

Full verification procedure: **P10, p. 83**.ALORA ACTION **VERIFY IN LIVE ALORA**

Open a document from the list. The viewer and its buttons must be verified.

ZENITH STANDARD

A document you did not open is not verified. Initial the SOC Desk Checklist only after all three open.

SOC Document Upload

Final verification

- ☐ Referral uploaded.
- ☐ Physician order uploaded.
- ☐ Face-to-Face documentation uploaded when required.
- ☐ Correct patient.
- ☐ Correct document.
- ☐ Correct date.
- ☐ Document opens successfully.
- ☐ No duplicate document.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed
 ☐ Information saved
 ☐ Correct patient
 ☐ Correct documents
 ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- You are not sure the patient is correct.
- No document type matches.
- An error message appears.
- A document shows twice.
- A document will not open.
- A document went into another patient's chart: tell the Administrator **at once**. Do not try to fix it.
- The face-to-face documentation is missing.

DO NOT DO THIS (COMMON MISTAKES)

- Do not upload into the wrong patient's chart.
- Do not delete a clinical document unless the Administrator or DON tells you.
- Do not guess the type. Ask.
- Do not click Save twice.
- Do not mark a box on the SOC Desk Checklist until you have opened the document.

TAB 5 · PROCEDURE P13

Prepare and Schedule the SOC Visit

Purpose

Stage 10 of the SOC workflow. Before anyone is scheduled, the office proves the packet is ready, the DON names the nurse, the patient agrees on a time, and then the start of care visit is put on the Alora schedule and checked. The first nurse visit is due within 48 hours of the referral, unless the physician ordered a later date.

Before you start

- ☐ Stages 1 to 9 are initialed on the SOC Desk Checklist.
- ☐ The **SOC Readiness Check**, **SOC Assignment** and **SOC Call Notes** forms (Tab 11).
- ☐ The referral arrival time, and the DON or Administrator's accepted decision.

WHO AND HOW LONG

Who: Scheduler. The DON names the nurse.

Time: 15 to 25 minutes.

Steps in this procedure

- 1** Check that the patient is ready p. 136
- 2** Get the nurse from the DON p. 137
- 3** Call the patient and agree a time p. 138
- 4** Add the SOC visit in Alora p. 139
- 5** Read the alerts, then Save p. 140
- 6** Check the visit is on the calendar p. 141
- 7** Close out: checklist, NOA date, tell the nurse p. 142

ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Write **who** you spoke with.
- 2 Write the **date and time** you agreed.
- 3 If the patient wants a **later** date, stop and tell the DON the same day.

ENTER

On the paper form only: the name, the call time and the agreed visit time.

CHECK

- The agreed time is before the 48-hour deadline, or the DON agreed to a later date.

EXPECTED RESULT

A visit date and time the patient agreed to.

WHAT YOU SHOULD SEE

A call form with a name, a call time and an agreed time.

DO NOT DO THIS

- Do not promise a later date.
- Do not discuss the patient's care or diagnosis on the call. Schedule only.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot reach the patient within 4 hours of the deadline.
- The patient refuses the visit.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith office step.

ZENITH STANDARD

Use the phone number from the chart. Identify yourself as calling from Zenith Care Home Health. Give out no health information until you are sure who you are speaking with.

STEP 4 Add the SOC visit in Alora

The screenshot shows the 'Add visit' form in the Alora system. The form has a sidebar with navigation links: Dashboard, Patients, Schedule (highlighted), Clinical, QA, Billing, Reports, Staff, and Messages. The main form area is titled 'Add visit' and contains the following fields:

- Patient:** Smith, Mary A. (Step 1: Patient, VERIFY)
- Visit type:** Start of care (RN) (Step 2: Start of care, VERIFY)
- Date:** 10/01/2026 (Step 3: Agreed date, VERIFY)
- Time:** 10:00 AM (Step 4: Agreed time, VERIFY)
- Team member:** [RN name] (Step 5: Nurse the DON named, VERIFY)
- Repeat / frequency:** Does not repeat

At the bottom of the form are 'Cancel' and 'Save' buttons. A yellow banner at the bottom of the form area reads: 'TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. Gray italic words describe an area. They are not Alora menu names.'

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Choose the **patient**.
- 2 Choose the visit type **start of care**.
- 3 Enter the **date** you agreed.
- 4 Enter the **time** you agreed.
- 5 Choose the **nurse** the DON named.

ENTER

Only what is written on your forms. Do not change anything to make an alert go away.

CHECK

- Patient name and date of birth are right.
- The nurse is the one on the SOC Assignment.
- Date and time match the SOC Call Notes.

EXPECTED RESULT

The form is filled in and not saved yet.

WHAT YOU SHOULD SEE

A visit form with the five boxes filled in.

DO NOT DO THIS

- Do not guess the visit type.
- Do not use another nurse because this one seems busy.

IF IT DOES NOT LOOK RIGHT: STOP

- The visit type 'start of care' is not in the list.
- The nurse is not in the list.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Add a visit from the schedule. The button, the form and the visit type names must be verified.

ZENITH STANDARD

Fill the form only from the paper forms. Never from memory.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 5 Read the alerts, then Save

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Read **every alert**. Alora can warn about a conflict, a missing authorization or a visit-frequency problem.
- 2 If the alerts are fine, click **Save** once.

ENTER Nothing to type on this step.

- CHECK**
- You read every alert.
 - An alert about a conflict is reported to the DON, not clicked away.

EXPECTED RESULT The form closes and the visit is saved.

WHAT YOU SHOULD SEE

A visit form with an alert box at the right, then the schedule after Save.

DO NOT DO THIS

- Do not click through an alert without reading it.
- Do not click Save more than once.

IF IT DOES NOT LOOK RIGHT: STOP

An error message appears: do not click Save again. **Stop** and ask the Administrator.

- An alert names a conflict, a missing authorization or a frequency problem.
- An error message appears.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents conflict and compliance alerts while scheduling. How the alerts look must be verified.

ZENITH STANDARD

An alert is a question for the DON. You do not answer it alone.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 6 Check the visit is on the calendar

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the **SOC visit** on the calendar.
- 2 Use the **week** view for the nurse. Check the day, the time and the nurse.

ENTER Nothing to type on this step.

CHECK

- The visit shows once, on the right day, at the right time, for the right nurse.

EXPECTED RESULT The SOC visit is on the calendar exactly once.

WHAT YOU SHOULD SEE

A calendar with a highlighted SOC visit on the day you chose.

DO NOT DO THIS

- Do not drag or edit a visit to make it fit. Ask the DON.

IF IT DOES NOT LOOK RIGHT: STOP

- The visit is missing, or shows twice, or shows for a different nurse.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents schedule views by patient, team member and day, week or month. The view names must be verified.

ZENITH STANDARD

Verify in the same session you scheduled.

Final verification

- ☐ The readiness check is complete and the 48-hour deadline is written.
- ☐ The DON named the nurse.
- ☐ The patient agreed to the time (or the DON agreed to a later date).
- ☐ The SOC visit is on the Alora calendar exactly once, for the right nurse.
- ☐ The NOA due date is written on the SOC Desk Checklist.
- ☐ The DON knows the visit is scheduled.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed
 ☐ Information saved
 ☐ Correct patient
 ☐ Correct documents
 ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- The 48-hour deadline cannot be met.
- The patient asks for a later date.
- An alert appears while you schedule.
- No nurse is available.
- The patient cannot be reached.

DO NOT DO THIS (COMMON MISTAKES)

- Do not schedule before the DON names the nurse.
- Do not promise the patient a later date.
- Do not ignore an alert.
- Do not save the visit twice.

P16 Change a Schedule When Authorized	p. 163

NOTES

TAB 6 · PROCEDURE P14

Schedule Visits

Purpose

To put a visit on the Alora schedule correctly: the right patient, the right discipline, the right team member, the right day and time, and the right repeat pattern. The example in this procedure is a weekly home health aide visit. A start of care visit uses the same screens (P13).

Before you start

- ☐ A **Visit Scheduling Request** signed by the DON (Tab 11). It shows the discipline, how often, the first visit date and the team member.
- ☐ The patient's agreed times (from your call).
- ☐ You are signed in (P1).

WHO AND HOW LONG

Who: Schedulers.

Time: 5 to 10 minutes for each patient.

Steps in this procedure

- 1 Get the DON's request** p. 146
- 2 Open the Schedule** p. 147
- 3 Start a new visit** p. 148
- 4 Choose who and what** p. 149
- 5 Choose when and how often** p. 150
- 6 Read the alerts, then Save** p. 151
- 7 Check the new visits on the calendar** p. 152
- 8 Tell the team member and the patient** p. 153

STEP 1 Get the DON's request

ZENITH CARE HOME HEALTH, LLC **VISIT SCHEDULING REQUEST**

PATIENT

Patient: _____ DOB: _____

FROM THE PLAN OF CARE (WRITTEN BY THE DON)

Discipline (RN, PT, OT, ST, aide, MSW): _____

How often (example: 2 times a week for 4 weeks): _____

First visit date: _____

Team member: _____

APPROVAL

DON initials: _____

1 How often
ZENITH FORM

2 Team member
ZENITH FORM

3 DON initials
ZENITH FORM

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Find **how often** the visits are ordered.
- 2** Find the **team member** the DON named.
- 3** Check the DON's **initials** are on the form.

ENTER Nothing to type on this step.

- CHECK**
- The discipline and frequency are written in words and numbers.
 - You did not choose the team member or the frequency yourself.

EXPECTED RESULT A signed request is in your hand.

WHAT YOU SHOULD SEE

A form with the discipline, the frequency, the first visit date, the team member and the DON's initials.

DO NOT DO THIS

- Do not schedule from memory or from a verbal request.
- Do not change the frequency to fit the calendar.

IF IT DOES NOT LOOK RIGHT: STOP

- There is no plan of care or no DON initials.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

The plan of care sets how often a patient is seen. The DON writes it on the request. Office staff never change it.

FEDERAL RULE Visits must follow the physician's plan of care.

STEP 2 Open the Schedule

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click **Schedule** in the main menu on the left.

ENTER Nothing to type on this step.

CHECK • You are not in the middle of another form.

EXPECTED RESULT The schedule screen opens.

WHAT YOU SHOULD SEE

A calendar with visits on it, and view choices at the top.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find Schedule, or the schedule does not open.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents scheduling. The menu name must be verified.

ZENITH STANDARD

Use the Alora menu to move. Do not use the browser Back arrow.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

STEP 3 Start a new visit

1 Add visit
ALORA FEATURE
+ Add visit

Mon 28	Tue 29	Wed 30	Thu 01	Fri 02
9:00 Nurse M. R.	8:30 PT A. L.	10:00 Nurse S. T.		9:30 Nurse J. D.
1:00 Aide J. D.			2:00 Aide M. R.	

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click the **add visit** button.

ENTER Nothing to type on this step.

CHECK • You are on the schedule, not inside a patient's record.

EXPECTED RESULT A form to add a visit opens.

WHAT YOU SHOULD SEE

A form titled like 'Add visit' with boxes for patient, type, date and time.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find an add visit button.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Alora documents batch entry scheduling. The button name and where it is must be verified.

ZENITH STANDARD

One visit form at a time. Finish or cancel a form before you start another.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 4 Choose who and what

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Choose the **patient**. Check the name and date of birth.
- 2 Choose the **visit type** (for example home health aide).
- 3 Choose the **team member** from the DON's request.

ENTER Only what is on the signed request.

- CHECK**
- The patient is the one on the request.
 - The visit type matches the discipline on the request.
 - The team member is the one the DON named.

EXPECTED RESULT Patient, visit type and team member are filled in.

WHAT YOU SHOULD SEE

The visit form with three boxes filled in.

DO NOT DO THIS

- Do not use a different team member because they are nearer or free.
- Do not guess the visit type.

IF IT DOES NOT LOOK RIGHT: STOP

- The visit type or team member you need is not in the list.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Choose the patient, the visit type and the team member. The names of the boxes and choices must be verified.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

ZENITH STANDARD

Two identifiers confirm the patient: name and date of birth.

STEP 5 Choose when and how often

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Enter the **date** of the first visit.
- 2 Enter the **time** you agreed with the patient.
- 3 Set **repeat** to match the frequency on the request.

ENTER

Date, time and repeat pattern from the request. For example: every Monday and Thursday for 4 weeks.

CHECK

- The date is not a day the patient said no to.
- The repeat pattern gives the same number of visits as the request.

EXPECTED RESULT

The form shows the date, time and repeat pattern.

WHAT YOU SHOULD SEE

The visit form with date, time and repeat filled in.

DO NOT DO THIS

- Do not set a repeat that gives more or fewer visits than ordered.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot make the repeat match the order.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Enter a date and a time, and set a repeat. The names of these boxes must be verified.

ZENITH STANDARD

Count the visits the repeat will create before you save. It must equal the order.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

CHECK • It is the right visit. It is the only visit that matches.

EXPECTED RESULT You see the visit you are allowed to change.

WHAT YOU SHOULD SEE

A calendar with the visit you will change.

DO NOT DO THIS

- Do not change a visit that is already done.
- Do not drag the visit to another day.

IF IT DOES NOT LOOK RIGHT: STOP

- You find two visits that could match.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Find a visit on the schedule. The view names must be verified.

ZENITH STANDARD

Two identifiers confirm the patient.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 3 Open the visit and change only what was approved

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Change the **date** only if the approval says so.
- 2 Change the **time** only if the approval says so.
- 3 Change the **team member** only if the approval says so.

ENTER

Only the items written on the approval form.

CHECK

- Every change on screen is on the approval form.
- You changed nothing else.

EXPECTED RESULT

The new values show in the boxes.

WHAT YOU SHOULD SEE

A visit form with the new values in the boxes you changed.

DO NOT DO THIS

- Do not change a box that the approval does not name.
- Do not delete the visit to start again.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find how to open the visit.
- The form offers to delete or cancel.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Open a visit and edit it. How to open the visit and the box names must be verified.

ZENITH STANDARD

Never delete a visit. If a visit must be cancelled, the DON or Administrator tells you how.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 4 Write the reason and Save

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Type the **reason** in words. Use the wording on the approval form.
- 2 Read any alert, then click **Save** once.

ENTER Reason: for example 'Patient asked for a later time. Approved by DON. Date.'

- CHECK**
- The reason is written.
 - No alert is left unexplained.

EXPECTED RESULT The form closes and the change is saved.

WHAT YOU SHOULD SEE

The visit form with a reason and the Save button.

DO NOT DO THIS

- Do not leave the reason blank.
- Do not click Save more than once.

IF IT DOES NOT LOOK RIGHT: STOP

An error message appears: do not click Save again. **Stop** and ask the Administrator.

- There is no place for a reason.
- An alert names a conflict or a rule.

ALORA ACTION VERIFY IN LIVE ALORA

Enter a reason and save. A reason box may or may not exist in Zenith's Alora. It must be verified.

ZENITH STANDARD

Every change has a written reason.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 5 Check the result

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the visit in its **new place**.
- 2 Check that the **old place** is empty.

ENTER Nothing to type on this step.

- CHECK**
- The visit shows once.
 - The day, time and team member match the approval.

EXPECTED RESULT The visit is in its new place, once.

WHAT YOU SHOULD SEE

A calendar where the visit has moved.

IF IT DOES NOT LOOK RIGHT: STOP

- The visit shows twice, or in the wrong place.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Alora documents schedule views. The view names must be verified.

ZENITH STANDARD

Verify in the same session you changed it.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

Initials: _____ Date: _____

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Write when and how you told the **patient**.
- 2 Write when and how you told the **team member**.
- 3 Write when you told the **DON**.

ENTER Nothing to type on this step.

CHECK • Both people know the new time.

EXPECTED RESULT The Change Notice Log is complete.

WHAT YOU SHOULD SEE

A log with three lines filled in.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

A change nobody knows about is a missed visit. Tell both people the same day.

PROCEDURE P16 · FINISH

Change a Schedule When Authorized

Final verification

- ☐ I had a signed approval before I changed anything.
- ☐ I changed only what the approval named.
- ☐ I wrote a reason.
- ☐ The visit is in its new place, once.
- ☐ The patient, the team member and the DON know.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- There is no written approval.
- The visit is a start of care visit.
- An alert names a conflict or a rule.
- The visit cannot be changed in Alora.
- The change would leave the patient with fewer visits than ordered.

DO NOT DO THIS (COMMON MISTAKES)

- Do not change a schedule without written approval.
- Do not delete a visit.
- Do not change a visit that is already done.
- Do not drag visits.

TAB 7 • PROCEDURE P17

Monitor Visits (Live Monitor)

Purpose

To watch visits as they happen, so a late or missed visit is found in minutes and not the next day. Alora documents a Live Monitor with color-coded warnings for delays and no-shows. Office staff watch, call and report. They never change a visit status.

Before you start

- ☐ You are signed in (P1).
- ☐ The **Late or Missed Visit Log** (Tab 11).
- ☐ The phone numbers of team members on duty.

WHO AND HOW LONG

Who: Office staff on duty.

Time: 5 minutes each time. Check at the start of the day, at midday and near the end.

Steps in this procedure

- 1 Open the Live Monitor** p. 173
- 2 Read the statuses** p. 174
- 3 A visit is late** p. 175
- 4 Call, record and report** p. 176
- 5 A visit is a no-show** p. 177

Open the Live Monitor

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Use the **main menu** to find the Live Monitor. Write its real name in the margin once you find it.

ENTER Nothing to type on this step.

CHECK • You are not inside a form.

EXPECTED RESULT A list of today's visits opens.

WHAT YOU SHOULD SEE

A list of visits with a time, a team member, a patient and a status.

IF IT DOES NOT LOOK RIGHT: STOP

- You cannot find the Live Monitor.

ALORA ACTION **ALORA FEATURE DOCUMENTED****SCREEN NAMES: VERIFY**

Alora documents a Live Monitor. Where it is in the menu must be verified.

ZENITH STANDARD

Check at the start of the day, at midday and one hour before the end of the day.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 2 Read the statuses

Live Monitor

Planned	Team member	Patient	Status
8:00 AM	Aide A	J. D.	In progress, on time
9:00 AM	Nurse B	M. R.	Late, not clocked in
9:30 AM	Aide C	A. L.	No-show
7:00 AM	Therapist D	S. T.	Complete

Sample data. Colors and words can differ in your Alora.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Read the **status** of each visit. Colors and words show on time, late, no-show or complete.
- 2 Find a visit that is **on time** and in progress. Nothing to do.

WHAT YOU SHOULD SEE

A list where each visit has a colored status.

DO NOT DO THIS

- Do not change a status yourself.

ENTER Nothing to type on this step.

CHECK • You can name the color and the word for each status.

EXPECTED RESULT You know which visits need nothing and which need you.

ALORA ACTION ALORA FEATURE DOCUMENTED

SCREEN NAMES: VERIFY

Alora documents color-coded delay and no-show warnings. The colors and words in Zenith's Alora must be verified and written in the margin.

ZENITH STANDARD

Green or 'on time' needs nothing. Anything else needs a call.

STEP 1

Find the pending items on the dashboard

The screenshot shows a web dashboard for Zenith's Alora. The top navigation bar includes a search bar, a logo placeholder, and a user profile placeholder. The left sidebar lists various menu items: Dashboard, Patients, Schedule, Clinical, QA, Billing, Reports, Staff, and Messages. The main content area is titled 'Dashboard' and contains two sections: 'Pending items' and 'Today's visits'. The 'Pending items' section is highlighted with a red box and contains three rows: '485 plans of care' with a count of 3, 'Orders' with a count of 5, and 'OASIS' with a count of 2. Red arrows point to these counts, labeled 1, 2, and 3 respectively. To the right of each row is a red circle with a white number, and below each circle is a blue box labeled 'ALORA FEATURE'. The 'Today's visits' section is empty and contains four horizontal lines for text entry.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Only the pending items box is drawn on this picture.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Read the count for **plans of care (485)**.
- 2 Read the count for **orders**.
- 3 Read the count for **OASIS**.

WHAT YOU SHOULD SEE

A box with three rows, each with a number.

ENTER Nothing to type on this step.**CHECK**

- You wrote the three numbers on the tracker.

EXPECTED RESULT You know how many items of each kind are waiting.ALORA ACTION **ALORA FEATURE DOCUMENTED****SCREEN NAMES: VERIFY**

Alora documents pending 485 forms, orders and OASIS shown in one place. Where they are in Zenith's Alora must be verified.

ZENITH STANDARD

Compare today's numbers with yesterday's. A number that keeps rising is a problem.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

QA Review (Office Completeness Check)

Purpose

Quality assurance (QA) catches errors before they reach the physician or the payer. Alora documents a QA area. Office staff check that each item is complete and in the right place. A trained QA reviewer, named by the DON, judges clinical content and sends items back.

Before you start

- ☐ You are signed in (P1).
- ☐ The **QA Completeness Check** and **QA Log** (Tab 11).
- ☐ The Administrator's list of required parts for each item.

WHO AND HOW LONG

Who: Trained office staff. A QA reviewer named by the DON approves or sends back.

Time: 10 to 20 minutes each day.

Steps in this procedure

- 1** Open QA p. 194
- 2** Read the QA list p. 195
- 3** Check that the item is complete p. 196
- 4** Items that need correction p. 197
- 5** Write the QA log p. 198

STEP 1 Find NOAs that are due

The screenshot shows a web interface for Zenith's Alora. The top navigation bar includes a search bar and a user profile. The left sidebar lists menu items: Dashboard, Patients, Schedule, Clinical, QA, Billing, Reports, Staff, and Messages. The main content area is titled 'Dashboard' and contains two sections: 'Pending items' and 'Today's visits'. The 'Pending items' section lists '485 plans of care' (3), 'Orders' (5), and 'OASIS' (2). The 'Today's visits' section is empty. A red box highlights the 'NOA (timely filing)' section, which contains a large number '2' and the text 'to send'. Below this, a red box highlights the text 'Due within 5 calendar days of the start of care.'.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Read the number in the **NOA box** on the dashboard.
- 2 Read the **deadline** words under it.

ENTER Nothing to type on this step.

CHECK • You wrote the number on the daily sheet.

EXPECTED RESULT You know how many NOAs still need to be sent.

WHAT YOU SHOULD SEE

A box with a number and the words about the 5-day deadline.

IF IT DOES NOT LOOK RIGHT: STOP

- A number is greater than zero and the due date is today or past.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Alora documents an NOA widget for timely filing. Where it is and how it looks must be verified.

FEDERAL RULE The NOA is due within 5 calendar days of the start of care. A late NOA reduces payment for each late day.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

ZENITH STANDARD

Read this box first thing every business day.

STEP 2 Open the NOA list

NOA (Notice of Admission)

Patient	Start of care	NOA due	Status	
Smith, Mary A.	10/01/2026	10/06/2026	Not sent	Create NOA
Jones, Robert	09/26/2026	10/01/2026	Accepted

ZENITH CARE HOME HEALTH, LLC **NOA CHECK**

PATIENT

Patient: _____ Start of care date: _____

BEFORE YOU CREATE THE NOA

☐ The SOC visit is done (the nurse completed the visit)

☐ Name, birth date and Medicare number match the card

☐ Physician name and NPI match the order

NOA due date (SOC date + 5 calendar days): _____

CHECKED BY

Initials: _____ Date: _____

1 SOC visit done
ZENITH FORM

2 Numbers match
ZENITH FORM

3 Write the due date
ZENITH FORM

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. **ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.**

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Check **SOC visit done**. Do not create an NOA before the nurse completed the visit.
- 2** Check that name, birth date and **Medicare number** match the card.
- 3** Write the **NOA due date**: SOC date plus 5 calendar days.

ENTER

Nothing to type on this step.

CHECK

- The Medicare number matches the insurance card copy exactly.
- The physician name and NPI match the order.

EXPECTED RESULT

The NOA Check is complete.

WHAT YOU SHOULD SEE

A form with three checks and a due date.

DO NOT DO THIS

- Do not create an NOA for a patient who has not started care.
- Do not type a Medicare number from memory.

IF IT DOES NOT LOOK RIGHT: STOP

- The SOC visit has not happened.
- A number does not match the card.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

A wrong number gets the NOA rejected, and the days keep counting.

STEP 4 Create and send the NOA

NOA (Notice of Admission)

Patient	Start of care	NOA due	Status
Smith, Mary A.	10/01/2026	10/06/2026	Not sent
Jones, Robert	09/26/2026	10/01/2026	Accepted
Lee, Ana	09/24/2026	09/29/2026	Accepted

Sample data. Not real patients.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Click **Create NOA** on the patient's row. Do this once.

ENTER Nothing to type if Alora fills the NOA from the record. If it asks for anything, stop and ask the Administrator.

- CHECK**
- You are on the right patient's row.
 - You are allowed to create NOAs.

EXPECTED RESULT The NOA is created. The status changes to sent or pending.

WHAT YOU SHOULD SEE

The row's status changes.

DO NOT DO THIS

- Do not click Create NOA twice.
- Do not click it if you are not named by the Administrator.

IF IT DOES NOT LOOK RIGHT: STOP

An error message appears: do not click again. **Stop** and ask the Administrator.

- An error message appears.
- Alora asks for information you do not have.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Alora documents one-click NOA generation. The button and what happens next must be verified.

ZENITH STANDARD

Only billing staff named by the Administrator create NOAs.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 5 Check that it was accepted

NOA (Notice of Admission)

Patient	Start of care	NOA due	Status	
Smith, Mary A.	10/01/2026	10/06/2026	Not sent	Create NOA
Jones, Robert	09/26/2026	10/01/2026	Accepted	
Lee, Ana	09/24/2026	09/29/2026	Accepted	

Sample data. Not real patients.

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Find the **status** next business day.
- 2 Find the patient's **row**. It should say accepted.

ENTER Nothing to type on this step.

- CHECK**
- Status says accepted.
 - You did this the next business day, not a week later.

EXPECTED RESULT The NOA is accepted.

WHAT YOU SHOULD SEE

A status that reads accepted.

IF IT DOES NOT LOOK RIGHT: STOP

- The status says rejected.
- The status is still not accepted after 2 business days.

ALORA ACTION **ALORA FEATURE DOCUMENTED**

SCREEN NAMES: VERIFY

Read the NOA status. The words must be verified.

ZENITH STANDARD

Check again each business day until it is accepted.

LIVE ALORA CHECK (Administrator): names and places match live Alora.

☐ Yes Initials _____ Date _____

STEP 6 Write it on the tracking log

ZENITH CARE HOME HEALTH, LLC **NOA TRACKING LOG**

PATIENT

Patient: _____ Start of care date: _____

NOA

Due date: _____ **1 Due date**
ZENITH FORM

Sent (date and time, by): _____

Accepted (date): _____ **2 Accepted date**
ZENITH FORM

☐ Rejected: tell the Administrator the same day **3 Rejected: tell the Administrator**
ZENITH FORM

LOGGED BY

Initials: _____ Date: _____

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT. ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1** Write the **due date**.
- 2** Write the date the NOA was **accepted**.
- 3** If it was rejected, check the box and **tell the Administrator the same day**.

WHAT YOU SHOULD SEE

A log with the NOA dates.

IF IT DOES NOT LOOK RIGHT: STOP

- The NOA was rejected.

ENTER Nothing to type on this step.

CHECK • Every date on the log matches what Alora shows.

EXPECTED RESULT The NOA Tracking Log is complete for this patient.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

Keep the log in the patient's billing folder.

PROCEDURE P22 · FINISH

NOA Workflow (Notice of Admission)

Final verification

- ☐ The SOC visit was done before I created the NOA.
- ☐ Name, birth date and Medicare number matched the card.
- ☐ The NOA was created once, within 5 calendar days of the start of care.
- ☐ I checked the status until it showed accepted.
- ☐ The NOA Tracking Log is complete.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- The NOA is close to the 5-day limit and not sent.
- The NOA was rejected.
- A number does not match the card.
- Alora gives an error.
- You are not sure you may create the NOA.

DO NOT DO THIS (COMMON MISTAKES)

- Do not create an NOA before the SOC visit is done.
- Do not create an NOA twice.
- Do not wait for the last day.
- Do not type a Medicare number from memory.

TAB 9 · PROCEDURE P24

Weekly Office Alora Check

Purpose

Once a week, look beyond today: items that have waited too long, patients whose visits do not match their orders, certification periods about to end, and staff credentials about to expire. Do this every Friday afternoon.

Before you start

- ☐ The **Weekly Office Alora Check** sheet (Tab 11).
- ☐ The **Certification Period Watch** form (Tab 11).
- ☐ This week's Daily sheets and QA Log.

WHO AND HOW LONG

Who: The office employee the Administrator names.

Time: About 45 minutes.

Steps in this procedure

- 1 Find items that have waited too long** p. 226
- 2 Compare visits with orders** p. 227
- 3 Watch certification periods** p. 228
- 4 Check staff credentials** p. 229
- 5 Complete the weekly sheet** p. 230

WEEKLY OFFICE ALORA CHECK

WEEK OF

Week of: _____ Employee: _____

CHECK EACH ONE

☐ Pending items older than 7 days listed and DON told

☐ New patients' visits compared with orders

☐ Certification periods ending in 14 days checked

☐ Staff credentials ending in 30 days listed

☐ QA Log given to the DON (Friday)

Problems reported (what, to whom, date): _____

1 Pending items

ZENITH FORM

2 Certification periods

3 Staff credentials

ZENITH FORM

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

ZENITH FORM (PAPER). THIS IS NOT AN ALORA SCREEN.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Check **pending items** after steps 1 and 2.
- 2 Check **certification periods** after step 3.
- 3 Check **staff credentials** after step 4.

WHAT YOU SHOULD SEE

A sheet with the weekly checks.

ENTER Nothing to type on this step.

CHECK • Every box you checked is true.

EXPECTED RESULT The Weekly Office Alora Check is complete.

ALORA ACTION ZENITH PROCESS

Not an Alora step. This is a Zenith paper form.

ZENITH STANDARD

Give the weekly sheet to the Administrator every Friday.

PROCEDURE P24 · FINISH

Weekly Office Alora Check

Final verification

- ☐ I listed items older than 7 days and the DON knows.
- ☐ I compared new patients' visits with their orders.
- ☐ I checked every certification period ending in 14 days.
- ☐ I listed credentials ending in 30 days.
- ☐ The weekly sheet is complete.

EVERY PROCEDURE: FINAL CHECK (WRITE N/A WHEN IT DOES NOT APPLY)

- ☐ Task completed ☐ Information saved ☐ Correct patient ☐ Correct documents ☐ No errors

STOP AND ASK THE ADMINISTRATOR OR DON IF

- An item is older than 14 days.
- A recertification visit is not scheduled.
- A credential is expired and the person is on the schedule.
- Visits do not match orders.

DO NOT DO THIS (COMMON MISTAKES)

- Do not skip the Friday check.
- Do not change a clinical form or a staff record.
- Do not check a box for something you did not do.

TAB 9 · PROCEDURE P25

Monthly Office Alora Check

Purpose

Once a month, check the whole picture: who is active, which claims are stuck, whether discharges are complete, and who still has a login. Do this in the last week of the month.

Before you start

- ☐ The **Monthly Office Alora Check** sheet and the **Discharge Check** form (Tab 11).
- ☐ The DON's census (list of active patients).
- ☐ The Administrator's list of current employees.

WHO AND HOW LONG

Who: The office employee the Administrator names.
The Administrator reviews the user list.

Time: About 90 minutes.

Steps in this procedure

- | | | |
|---|---|--------|
| 1 | Compare the active patient list with the DON's census | p. 233 |
| 2 | Look at every claim | p. 234 |
| 3 | Check every discharge | p. 235 |
| 4 | Give the Administrator the user list | p. 236 |
| 5 | Complete the monthly sheet | p. 237 |

Patient name	Date of birth	Record number	Status
Smith, Mary A.	03/14/1941	R-10482	Active
Smith, Mary	03/14/1914	R-09110	Discharged
Smith, Marie	07/02/1944	R-11236	Pending

Sample data. Not real patients.

2 Patient list VERIFY

1 Status column VERIFY

TRAINING MOCKUP. NOT AN ALORA SCREENSHOT.

Gray italic words describe an area. They are not Alora menu names.

DO THESE IN ORDER (FOLLOW THE RED NUMBERS)

- 1 Open the **patient list** and read the **status** column.
- 2 Compare it with the **DON's census**. Every active patient is on both lists.

ENTER Nothing to type on this step.**CHECK**

- No patient is active in Alora but not in the census, and no patient is in the census but not active in Alora.

EXPECTED RESULT The two lists match, or you know which patients do not.

WHAT YOU SHOULD SEE

A patient list with a status for each.

DO NOT DO THIS

- Do not change a patient's status. The DON does.

IF IT DOES NOT LOOK RIGHT: STOP

- A patient is active in one list and not in the other.

ALORA ACTION **VERIFY IN LIVE ALORA**

Open the patient list and read the status. The filter for active patients must be verified.

ZENITH STANDARD

Give differences to the DON the same day.

LIVE ALORA CHECK (Administrator): names and places match live Alora.☐ Yes Initials _____ Date _____

STEP 2 Look at every claim

P27 What needs approval (2 of 2)	p. 244
Who to call	p. 245

NOTES

Troubleshooting (1 of 2)

Signing in, screens and saving. Find what you see in the left column. If the last column says **STOP**, stop and ask the Administrator. Write the time and what you saw on the Problem Report (Tab 11).

WHAT YOU SEE	WHAT IT MAY MEAN	WHAT YOU DO	STOP AND ASK?
The sign-in page does not open	The address was typed wrong, or the internet is down.	Use the bookmark the Administrator saved. Do not search for Alora on a search engine. Check that other websites open.	STOP if a security warning appears.
Sign-in does not work once	Typing mistake. Caps Lock may be on.	Check that Caps Lock is off. Type the password slowly. Try once more.	After two tries, STOP .
You forgot your password	Normal. It happens.	Ask the Administrator to reset it. Never use another person's login, even for a minute.	STOP . Ask.
The screen is different from this manual	Alora changed, your role is different, or the picture in this manual was not checked yet.	Do not guess. Write what you see in the margin. Ask the Administrator. The pictures are training mockups, not screenshots.	STOP .
A button named in this manual is missing	The button has another name, or your role cannot see it.	Do not click a different button that looks close. Ask the Administrator to show you.	STOP .
The page is blank or keeps loading	The internet is slow.	Wait 30 seconds. Do not click many times. Do not refresh while a form is saving. Try the Alora menu.	STOP after 2 minutes.
You are signed out suddenly	The session ended after you were idle.	Sign in again. Open the record. Check whether your last save is there. Do not assume it is.	STOP if data is missing.
An error message appears after Save	The save did not finish.	Do not click Save again. Look in the list to see if the item saved. Write the exact words of the message.	STOP .
A yellow or red alert appears while scheduling	Alora found a conflict or a rule problem.	Read it. Do not click through. Show it to the DON.	STOP .
The page looks frozen after you clicked	The computer is still working.	Wait. Do not click again. A second click can save twice.	After 1 minute, STOP .

Troubleshooting (2 of 2)

Patients, documents and visits. The rule is the same: do not fix it yourself. Report it.

WHAT YOU SEE	WHAT IT MAY MEAN	WHAT YOU DO	STOP AND ASK?
The patient is not found	Spelling, birth date or a nickname.	Search three ways (P3). Do not create a patient.	If three searches fail, STOP .
Two patients have the same name	Normal for common names.	Use date of birth and record number. Do not guess.	STOP if you cannot tell them apart.
The upload did not finish	File problem or internet problem.	Do not click Save again. Check the document list for a new row. Write the message.	STOP .
A document shows twice	Saved twice.	Do not delete one. Fill in a Document Problem Report.	STOP .
A document is in the wrong chart	Wrong patient was open. This is a privacy problem .	Stop. Do not delete or move it. Write the two names, the document and the time. Tell the Administrator now .	STOP NOW .
A document will not open or is blank	Bad scan.	Scan it again. Check it in the viewer before uploading. Do not delete the bad one.	STOP if it still fails.
The visit is not on the schedule after Save	The view hides it (wrong patient, day or week).	Check view by and show. Look at the week. Do not add it again.	STOP if it is still missing.
A visit is on the schedule twice	Saved twice.	Do not delete one. Tell the DON.	STOP .
The Live Monitor is empty but visits are scheduled	Wrong day or filter.	Check the date and filters. Look at the schedule.	STOP if it stays empty.
An NOA shows rejected	A number or a date was wrong.	Write the words of the message. Tell the Administrator the same day.	STOP .
A name in Alora is different from the insurance card	Typing mistake in the record.	Do not change it. Fill in a Record Correction Request (P5).	STOP .
You opened the wrong patient by mistake	A click on the wrong row.	Close it. Do not read it. Tell the Administrator if you read anything.	Tell the Administrator.
You think someone used your login	Shared or guessed password.	Lock the computer. Tell the Administrator at once .	STOP NOW .

10 PROBLEMS

11 FORMS

A document is in the wrong chart

This is the one mistake that must be reported at once. It is a privacy problem and it can also cause a wrong care decision. Do these five things, in this order.

THE FIRST TEN MINUTES

1. **Stop.** Do not click anything else in that chart.
2. **Do not delete, move or rename** the document. The Administrator decides how to correct it.
3. **Write down:** the name of the patient whose chart has the document, the name of the patient it belongs to, the document name, the date and the time.
4. **Tell the Administrator now.** Go to the Administrator's desk or call. Do not send an email or a text with patient names.
5. **Close the chart** and wait for instructions.

DO

- Tell the truth about what happened.
- Tell the Administrator even if you are not sure.
- Write what you did and when.

DO NOT

- Do not try to fix it quietly.
- Do not tell anyone outside Zenith.
- Do not wait until the end of the day.

Write it here

Patient whose chart has the document: _____

Patient it belongs to: _____

Document, date and time: _____

Time the Administrator was told: _____

FEDERAL RULE

HIPAA requires Zenith to look into any use or disclosure of patient information that is not allowed, and to decide whether it must be reported. That decision belongs to the Administrator and the privacy contact, not to office staff.

What needs Administrator or DON approval (1 of 2)

Office staff prepare, check and report. The people in the third column decide. If an action is not on this list, ask before you do it.

ACTION	OFFICE STAFF MAY	NEEDS APPROVAL FROM	FORM (TAB 11)
Accept, hold or decline a referral	No. Log and check the packet.	DON or Administrator	Referral Decision
Create a new patient	Only after the DON accepts and three searches find nothing (P5B).	DON	Referral Decision
Change a demographic detail	Prepare a request when a document shows a difference.	Administrator	Record Correction Request
Change a clinical detail (diagnosis, medicines, allergies)	No.	DON	None. Clinicians only.
Choose the nurse for a start of care	No.	DON	SOC Assignment
Schedule a start of care visit	Yes, after the readiness check.	DON names the nurse	SOC Readiness Check
Agree to a start date later than 48 hours	No.	DON and the physician's order	SOC Call Notes
Add a visit from a plan of care	Yes, from a signed request.	DON signs the request	Visit Scheduling Request
Change a visit	Only with written approval.	DON or Administrator	Schedule Change Approval
Delete or cancel a visit	No.	DON	None. Ask.
Upload a document into a chart	Yes, when trained.	A second person verifies orders and face-to-face	Document Verification
Choose the type 'Other'	No, unless told.	Administrator	None. Ask.
Delete or replace a document	No.	Administrator or DON	Document Problem Report

Who to call

The Administrator fills in the blanks when the binder is issued. The two hotline numbers are public. The Administrator confirms them.

WHO	CALL WHEN	NAME AND NUMBER
Emergency	Anyone is in danger.	911
Administrator	Any stop rule in this manual. Privacy problems.	_____
Director of Nursing (DON)	Clinical questions. Late or missed visits. Referral decisions.	_____
On-call nurse (after hours and weekends)	An urgent clinical problem.	_____
Privacy contact	A document in the wrong chart. A lost paper. Login misuse.	_____
Compliance officer	A record that may be false. A billing worry.	_____
Billing	Claims and NOA questions.	_____
Alora support	A problem the Administrator cannot solve.	_____
Office IT help	Scanner, printer, computer, internet.	_____
Florida Abuse Hotline	You suspect abuse, neglect or exploitation of a vulnerable adult. Report it at once. Also tell the Administrator.	1-800-96-ABUSE (1-800-962-2873)
HHS Office of Inspector General	You suspect Medicare or Medicaid fraud.	1-800-HHS-TIPS

FEDERAL AND FLORIDA RULE

Florida law (section 415.1034, Florida Statutes) says any person who knows or has reasonable cause to suspect that a vulnerable adult is being abused, neglected or exploited must report it immediately to the Florida Abuse Hotline. You do not need proof.

9 ROUTINES

10 PROBLEMS

11 FORMS

- 1 Open the patient's **document list**.
- 2 Find each document you uploaded. **Once each**.
- 3 Click the document to **open** it.
- 4 Read the **patient name** and **date of birth** on the page.
- 5 Look at **every page**. All readable?
- 6 Check the **type** and the **document date**.
- 7 Fill in the **Document Verification** form. Initial it.
- 8 Orders and face-to-face: a **second person** checks too.

STOP AND ASK THE ADMINISTRATOR OR DON IF

- A document is in the wrong chart.
- A document will not open or cannot be read.
- You find a duplicate.
- The type does not match the paper.

DO NOT

- Do not delete or rename a document.
- Do not assume it is fine because the upload finished.
- Do not remove the scan file before you verify.

Full procedure with pictures: **p. 83**. Button names in your Alora may differ from these words. Write the real names in the margin once the Administrator has verified them.

9 ROUTINES

10 PROBLEMS

11 FORMS

- 1 Get the **signed Visit Scheduling Request** from the DON.
- 2 Click **Schedule** in the main menu.
- 3 Click **Add visit**.
- 4 Choose **patient, visit type, team member**.
- 5 Enter **date, time, repeat** (same number of visits as the order).
- 6 Read **every alert**.
- 7 Click **Save once**.
- 8 Check the **calendar**: once, right day, right person.
- 9 **Tell** the team member and the patient.

STOP AND ASK THE ADMINISTRATOR OR DON IF

- There is no signed request.
- An alert names a conflict, a missing authorization or a frequency problem.
- A start of care visit cannot be inside 48 hours.
- An error appears.

DO NOT

- Do not change the ordered frequency.
- Do not use a team member the DON did not name.
- Do not click Save twice.

Full procedure with pictures: **p. 145**. Button names in your Alora may differ from these words. Write the real names in the margin once the Administrator has verified them.

11 FORMS

1 Sign in with your own login.

2 Read **pending items** and the **NOA box**. NOA due today goes to billing.

3 Check the **Live Monitor**. Call about every late visit.

4 Open the **exception list**. Start a follow-up for each new one.

5 Look at **today's schedule**. Every visit has a team member.

6 **Midday**: Live Monitor again.

7 **One hour before the end of the day**: Live Monitor again.

8 Check the **scan folder**: only files still waiting.

9 **Log out**. Lock the computer (Windows key + L). Initial the sheet.

STOP AND ASK THE ADMINISTRATOR OR DON IF

- An NOA is due today and not sent.
- A start of care visit is late or missed.
- An exception is older than 2 business days.
- A patient file is where it should not be.

DO NOT

- Do not skip a step on a busy day.
- Do not tick a box you did not do.
- Do not sign in as someone else.

Full procedure with pictures: **p. 216**. Button names in your Alora may differ from these words. Write the real names in the margin once the Administrator has verified them.

Live Alora Verification Worksheet

The pictures in this manual are training mockups. Nobody has checked them against Zenith's live Alora account yet. This worksheet is how that check is done, once, by the Administrator.

HOW TO DO THE CHECK (ABOUT 2 HOURS, AT AN OFFICE COMPUTER, SIGNED IN TO LIVE ALORA)

1. Sit with the Administrator. Open live Alora. Do **not** type or save anything in a real patient record.
2. Go down the worksheet one row at a time. For each row, open the screen named on the pages shown in the third column.
3. Write the **exact words** Alora shows for that button, menu or box in the 'Alora says' column. Write **where it is** (for example 'left menu, third item').
4. If the row says 'Alora feature documented', the feature exists. You are confirming only the words and the place.
5. If a row does not exist in your Alora, write **NONE** and the real way to do the task. Tell the Administrator. That step of the manual must be rewritten.
6. When a row is correct, initial the last column.
7. Give the finished worksheet to the person who maintains this manual. They enter the real names and the manual is reissued. Pictures then show 'verified'.

WHAT THE TWO TAGS MEAN

- **Verify** (dashed gold): nothing public confirms this name or place. Verify it.
- **Alora feature** (blue): Alora publicly describes this feature by name (from its website and review sites). The exact menu or button text and its place are still to verify.

There are **83 rows** on the next 7 pages. Rows for paper forms and Windows screens are not on this list because they are not Alora screens.

Training sign-off

A procedure is signed off when the trainee has done it alone, at a real Alora screen, from this manual, and the trainer checked the result. The test is: could a new employee who has never used Alora follow the pictures and finish the task?

Trainee: _____ Trainer: _____

Start date: _____ Alora login created on: _____

PROC.	PROCEDURE	TRAINER SHOWED (INITIALS)	DID IT ALONE, CORRECT (INITIALS)	DATE
P1	Log Into Alora			
P2	Understand the Desktop Dashboard			
P28	Security and HIPAA Precautions			
P3	Find a Patient

Glossary (1 of 2)

Words used in this manual, in plain language.

Administrator	The person who runs Zenith and approves changes. You stop and ask the Administrator when this manual says so.
Alert	A warning Alora shows, for example a scheduling conflict. Read it. Do not click through it.
Alora	The web system Zenith uses for patient records, scheduling, visit tracking, quality review and billing. Office staff use it in a browser on a Windows computer.
Certification period	Up to 60 days of care covered by one plan of care.
Chart (patient record)	Everything stored about one patient.
Claim	A bill sent to an insurance company or program for care given.
Demographics	Basic facts about a patient: name, birth date, address, phone, language, emergency contact.
Discharge	The end of care for a patient.
Discipline	A kind of care worker: nurse (RN), physical therapist (PT), occupational therapist (OT), speech therapist (ST), aide, social worker (MSW).
DON	Director of Nursing. The nurse leader who decides clinical questions and names the nurse for each start of care.
Document type	The label you choose when you upload a document, for example referral. It helps everyone find the document later.
Duplicate	A second copy of the same patient or the same document. Duplicates cause errors. Report them. Do not delete them.
EVV	Electronic visit verification. Proof from a phone or device that a visit happened: who, where and when.
Exception	A visit record that does not match the plan, for example a missing clock-out.
Face-to-face (F2F)	A visit in which a physician or allowed practitioner saw the patient in person. Medicare requires it for home health.
HIPAA	The federal law that protects the privacy of health information.
Live Monitor	An Alora screen that shows visits as they happen, with warnings for late visits and no-shows.

Glossary (2 of 2)

Words used in this manual, in plain language.

MBI	Medicare Beneficiary Identifier. The patient's Medicare number.
NOA	Notice of Admission. It tells Medicare that a patient has started care. It is due within 5 calendar days of the start of care.
NPI	National Provider Identifier. A 10-digit number that identifies a physician or other provider.
OASIS	A standard assessment a nurse or therapist completes at start of care and at other times. Its answers are sent to Medicare.
Payer	The one who pays for care: Medicare, Medicaid or an insurance company.
Physician order	A written instruction from a doctor for the care a patient will receive.
Plan of care (485)	The document that lists a patient's care, goals and how often visits happen. The physician signs it.
Protected health information (PHI)	Any detail that can identify a patient and relates to health or care. Treat everything in Alora as PHI.
QA	Quality assurance. A check that work is complete and correct before it moves on.
Recertification	A new assessment near the end of a 60-day period when care continues.
Referral	A request for Zenith to care for a patient, from a doctor, hospital or family.
Scan	To make a digital copy of a paper.
Start of care (SOC)	The date of the first visit that starts care for a new patient.
Team member	A person who goes to visits: a nurse, therapist or aide.
Upload	To copy a file from the office computer into Alora.
Verify	To prove something is true by checking it yourself.
